Dear Atari User:

SOME STRAIGHT TALK ABOUT PUBLIC DOMAIN

Are you interested in quality 8-bit software at an affordable price? Welcome to the BELLCOM Public Domain and Shareware Catalogue! Inside you will find the selection of programs you have been waiting for.

This is the largest collection we've ever put together. It contains over 350 Theme Disks and there are more on the way. There may be other Public Domain services claiming to have more disks available, but then, that's where we separate from the pack. It isn't "quantity" that we strive for. You see, there are dozens of programs that we weeded out because, quite frankly, we knew you wouldn't want them. The truth is, they were just not good enough. Instead, we strive for "quality". That's why we can guarantee the programs on our disks!

Our low overhead lets us maintain low prices, but we will never be the lowest priced. We simply refuse to slap a bunch of untested programs together on a cheap disk just so we can charge rock-bottom prices. Don't gamble with your hard-earned money on second-rate software. What good is a word processor if it doesn't come with all its instructions, or a game if it doesn't run? Isn't it worth paying a just a wee bit extra for the assurance that you're getting the best? What's more, you deserve the best.

The key word is *quality*. Since 1986, BELLCOM has won the respect of Atari users worldwide for providing dependable service and terrific value. But don't just take our word for it. Find out for yourself. Look through our catalogue and mail your order today! We're waiting to serve you.

Sincerely,

Don Bell (Owner)

P.S. To keep receiving all our Catalogues, Newsletters, and special offers, all you need to do is place an order with us. Do it now. Don't miss out.

P.O. Box 1043, Peterborough

Ontario, CANADA K9J 7A5

(705) 743-1423

All rights reserved

Printed in Canada

No portion of this catalogue may be reproduced in any form without the written permission of the author. All disk compilations are copyrighted by BELLCOM, but not the individual programs written by others. This is to protect the huge amount of work and money invested in creating this unique library. No duplication of the BELLCOM disks for resale purposes is permitted. As a general rule, individuals and non-profit user groups are allowed to make limited numbers of disk copies for friends and members without getting permission from BELLCOM.

BELLCOM is a registered independent company and is not affiliated in any way with Atari (Canada) Corp. or any other commercial company or non-commercial group. Atari is the Registered Trademark of Atari (Canada) Corp. Print Shop is the Registered Trademark of Broderbund. All references to commercial Atari products are trademarked and should be so noted.

Software listed in the BELLCOM catalogue has been selected from various Public Domain sources throughout the world and is all believed to be in the Public Domain, or offered as Shareware. Anyone finding a program listed that is not Public Domain or Shareware, please let us know so that we may remove it. BELLCOM does not support or condone software piracy!

There is no charge for the Public Domain Software itself. The modest fee charged for each disk is to defray our considerable time and expense involved in collecting, testing, advertising, and distributing the software.

QUESTIONS???

WHAT DOES BELLCOM OFFER?

We offer you a dependable source of quality software at a price that's easy on your pocketbook. Now, you too can have access to the latest programs carefully selected from Public Domain libraries around the world. Club librarians can use our services to easily acquire ready-to-use programs for their monthly disk offerings without having to spend hours debugging, down loading, or wasting club monies on second-rate software.

It's all here in one place, including the convenience of armchair shopping. No doubt about it, BELLCOM offers an affordable alternative to expensive commercial software and disorganized collections of Public Domain. Nobody else comes close.

WHAT MAKES BELLCOM'S CATALOGUE DIFFERENT?

You won't be disappointed with this Public Domain catalogue! It's handy program descriptions take the guesswork out of ordering. To show you what we mean, our Game descriptions even include information on the number of players allowed and whether you use the keyboard (KB), joysticks (JS), or paddles (PDL) to play. What's more, special hardware requirements, loading instructions, and hints on using the program are also provided when needed. We even tell you if the program has documentation (DOC), and whether it is written in BASIC (BAS) or in machine language (ML). You'll want to keep this catalog within easy reach as a reference. It's the answer to your 8-bit software needs.

WHAT IS PUBLIC DOMAIN SOFTWARE?

Public Domain (P.D.) software is usually not copyrighted. Public Domain programs may be freely used and copied by anyone. Often the author has written the program for his own use and just wants to share it with other Atari users like yourself. Sometimes a program written for the commercial market will instead be released in the Public Domain. Because it's unprotected, you are free to enhance and modify it to your heart's content.

WHAT IS SHAREWARE?

"Shareware" or "User-supported" software is copyrighted, however, the author permits his program to be freely distributed in order that you may try it out. If you enjoy the program and continue using it on a regular basis, you are expected to *voluntarily* pay a registration fee (usually \$5 to \$15) directly to the program's author. As a registered owner you will often receive a printed manual, technical support, and possibly an updated version of the program. The author's name, address, and the payment requested, is shown in the program's opening screen. Sometimes no fee is expected, but it's still a nice gesture to write the author and express your appreciation. Now that commercial 8-bit software is becoming scarce, BELLCOM encourages you to support Shareware authors to ensure the continued supply of quality programs.

WHAT IS A THEME DISK?

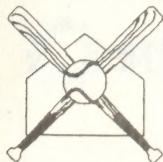

BELLCOM Theme Disks contain individually tested Public Domain and Shareware programs. Some disks may contain a single huge program package, while other disks are literally *packed* with smaller programs carefully organized by subject matter. All programs listed in connection with a Theme Disk are contained on that disk and are included in the disk's low price. The result? Each disk is packed full of value!

WHAT MAKES BELLCOM DISKS SUPERIOR?

For one thing, you can tell just by looking at our descriptive catalogue that we don't cut corners. Don't be taken in by the confusing listings offered by some other vendors. We're not ashamed of the programs on our disks, so we let you know exactly what you're getting. Because we know you are very selective when it comes to software, **every program** we offer has been carefully tested and is **guaranteed** to run. In many cases **documentation** files have been added and we've even tidied up existing files to make them easier to read.

And we don't stop there. We try to distribute the **latest versions**. Theme Disks in our library are updated with the latest program versions as they become available to us. The latest versions tend to have more features and less bugs. As a further convenience, **program updates** are provided free if you purchased the original from us!

Finally, your order will be professionally prepared using **quality disks** and state-of-the-art duplicating equipment which automatically checks each disk for bad sectors and verifies each copy to ensure that it reaches you **error-free**. Does all this sound too good to be true? You'll just have to experience it for yourself. There's nothing to compare. Mail your order today!

GAMES

■ 001 STARTREK CLASSICS

#1

Two giant Star Trek adventures

ENTERPRISE - Command the starship Enterprise. Tremendous detail. (BAS)(1 Plyr/KB)

STARTREK - Explore the great unknown in this classic Star Trek adventure. (BAS)(DOC)(1 Plyr/KB)

■ 002 BOARD GAME CLASSICS

BACKGAMMON - Play Backgammon on your TV. (BAS)(2 Plyr/JS)

MONOPOLY - The classic board game. (BAS)(2-4 Plyr/JS)

OTHELLO - Computerized Reversi. (BAS)(1-2 Plyr/JS)

PENTE - Capture 5 pairs of markers, or get 5 of your own in a row. (BAS)(2 or 4 Plyr/JS)

YAHZEE - Dice strategy fun. (BAS)(1-3 Plyr/JS)

MOTIE - Position 3 starships to protect Empire from the Motie destroyer. (BAS)(1-2 Plyr/JS)

HISEAS - Computerized version of Battleship. (BAS)(1 Plyr/KB)

OIL WELL - Drill for oil and build a fortune. (BAS)(1-4 Plyr/JS)

■ 003 PUZZLES

SCRAMBLE - Arrange letters on Rubik cube. (BAS)(1 Plyr/KB)

RUBIK CUBE - Yes, your Atari will help you to actually solve your Rubik Cube. (BAS)

MERLIN - Light up all the magic squares. (BAS)(1 Plyr/KB)

QUATRAIN - Quickly match the patterns. (BAS)(1 Plyr/KB)

RICOCHE - Fire shots through a grid. (BAS)(1 Plyr/KB)

MASTER - Guess 4 digits... like Mastermind. (BAS)(1 Plyr/KB)

MAGIC SQUARE - Arrange numbers in order. (BAS)(1 Plyr/KB)

NIM - 3-Pile Nim classic. (BAS)(1 Plyr/KB)

■ 004 WORD GAMES

HANGMAN - Traditional game of Hangman. (BAS)(1 Plyr/KB)

WORD SEARCH - Locate hidden words among the letters. (BAS)(1 Plyr/KB)

WORD HUNT - Similar to WORD SEARCH above, except YOU choose the hidden words. (BAS)(1 Plyr/KB)

WORD GUESS - Guess words from given clues. (BAS)(1 Plyr/KB)

ADLIBS - Help Atari write a funny story. (BAS)(1 Plyr/KB)

CRYPTO - Enter code letters and values to solve crypto-grams. (BAS)(1 Plyr/KB)

TENGAL - Hangman, using words from Star Wars. (BAS)(1 Plyr/KB)

ZAHIRON - Lose, and you create an

alien in this version of Hangman. (BAS)(1 Plyr/JS)

HANGQUOTE - Hangman, featuring famous sayings. (BAS)(1 Plyr/KB)

CINQUAIN - Write 5-line cinquain poetry. (BAS)(1 or more Plyr/KB)

■ 005 GAMES FOR YOUNGER KIDS

A parent's guide to this disk is included.

CONCENTRATION - Kid's version of Concentration. (BAS)(1-2 Plyr/JS)

PIGGY BANK - Catch falling coins in the piggy bank. (BAS)(1 Plyr/JS)

BARNYARD - Use clues to solve the mystery. (BAS)(1 Plyr/KB)

HAWKS - Swoop down and catch your prey. (BAS)(1-2 Plyr/JS)

GONE FISHING - How many fish can you catch? (BAS)(1 Plyr/JS)

CALAMITY - Try driving on the winding road. (BAS)(1 Plyr/JS)

MCDONALD - Learn number concepts at Old McDonald's Farm. Great graphics. (BAS)(1 Plyr/JS)

RECKLESS - Avoid the other cars on the road. (BAS)(1 Plyr/JS)

LEFT RIGHT - Quick! Test your reflexes. (BAS)(1 Plyr/JS)

SHOOT - Torpedo the moving target. (BAS)(1 Plyr/JS)

■ 006 RAMBLIN GAMBLIN

This huge Shareware game fills the disk. Choose from 5 great games of chance including Roulette, 5 Card Stud, Black Jack, Horse Racing, and Ramblin Gamblin. Professional quality, with animated graphics and complete instructions. (1-4 Plyr/JS)

■ 007 GAMES OF CHANCE

GAMBLER - A variety of games of chance. (BAS)(1-4 Plyr/JS)

BLACKJACK - Casino 21 with great graphics. (BAS)(1 Plyr/JS)

SOLITAIRE - Solitaire, very nicely presented. (BAS)(1 Plyr/JS)

TRAGEDY - Roll the dice to get 100 points. (BAS)(Multi-Plyr/JS)

DOG RACE - Real time Greyhound racing simulation, featuring animation and lots of detail. (ML)(1-6 Plyr/KB)

TRIPLE DICE - Las Vegas dice machine simulation. (BAS)(1 Plyr/JS)

■ 009 GAMES by OCKER

A big THANKS to Stan Ockers for hours of enjoyment.

CHICKEN - Take the chicken across the busy road. (BAS)(1 Plyr/JS)

CRICKETS - Help Cricket cross the freeway. (BAS)(1 Plyr/JS)

DOGGIES II - Position the animated dogs. (BAS)(1 Plyr/JS)

BATS - Fly your bat through the caverns. Great fun! (BAS)(1-4 Plyr/JS)

NEW BATS - Similar to original BATS above, but joystick control is uniquely modified. (BAS)(1-4 Plyr/JS)

FROG - Catch fireflies on your tongue. (BAS)(1 Plyr/JS or PDL)

WILD WEST - Don't drop that dynamite! (BAS)(1 Plyr/IDL)

HEXAGON - Solve the mystery of Castle Hexagon. (BAS)(1 Plyr/JS)

TIME TRIALS - Race along the winding road. (BAS)(1 Plyr/JS)

■ 010 SPORTS #1

BOWLING - Bowl 10 pins. Animated graphics. (BAS)(1-2 Plyr/JS)

PRO GOLF - Detailed 18 hole pro golf tour. (BAS)(1-4 Plyr/JS)

POWERHOUSE - Football management simulation. Trade players, choose your team, then watch the season unfold. (BAS)(1 Plyr/KB)

BANK SHOT - Bank the cue ball into a pocket. (BAS)(1-9 Plyr/JS)

MAIN EVENT - Atari chooses holds and referees while you "actually" wrestle live with an opponent. (BAS)(2 Plyr/KB)

■ 011 SPORTS #2

BASEBALL - All Star Baseball. Two joysticks are required to operate this game. Batter up! (BAS)(2 Plyr/JS)

FOOTBALL - Choose strategies and watch the grid action unfold. (BAS)(1 Plyr/KB)

BOWLING - Huge 10 pin bowling simulation with animation and realistic play. (ML)(1-4 Plyr/JS)

NORDIC - Olympic downhill skiing (Crash!)(ML)(1 Plyr/JS)

MINI GOLF - Play miniature 9 hole golf. (BAS)(1-10 Plyr/KB)

■ 012 VOYAGE THROUGH TIME

TWO huge machine language arcade adventures by David Castell, author of First XLEnt Word Processor, featuring colorful animation and fast professional play action! On your first mission, travel back to ONE MILLION B.C. and rescue a lost time traveller. Then, on your second mission, assist Sir Albert in avoiding deadly assassins during the MEDIEVAL ERA. Dave's unique CHAOS game is also included. (1 Plyr/JS)

■ 013 BBS HITS #1

NIGHT SHADE - Text adventure inspired by the movie The Never Ending Story. (BAS)(1 Plyr/KB)

DINO WARS - Bite your opponent's dinosaur on the back of the neck. (BAS)(2 Plyr/JS)

RAFFERTY - Help your Leprechaun get the gold. (BAS)(2 Plyr/JS)

BASIC BURGER - Build burgers and avoid the bad guys. (BAS)(1 Plyr/JS)

DARK HORSE - Campaign for the U.S. primaries. A challenging simulation. (BAS)(1 Plyn/KB)

MICRO PUZZLER - Create a 120 piece jigsaw puzzle from any 62 SECTOR MicroPainter or P.D. PAINT picture file, then use your joystick to reassemble it. (P.D. PAINT and picture files are available on Theme Disk #070.) (BAS)(1 Plyn/JS)

■ 014 BBS HITS #2

KNIGHTS - Search for the Grail in this animated graphics adventure. (BAS)(1-2 Plyn/JS)

BOPOTRON - Guide Robot through a 7 level space complex to recharge power units. (BAS)(1 Plyn/JS)

BOPOTRON CONSTRUCTION SET - Create BOPOTRON game levels of your own design. You may require instructions from ANALOG's issue 24. (BAS)(JS)

MAZE 1 - Modified version of 3-D Moto Maze. Drive through passages to escape. (BAS)(1 Plyn/JS)

MAZE 2 - Modified version of 3-D Moto Maze featuring a really GIANT maze. (BAS)(1 Plyn/JS)

DRAGON LORD - Detailed board game adventure. (BAS)(1 Plyn/JS)

■ 015 BBS HITS #3

19 fast action arcade games

BACTERIUM - Save brain cells from attack by mutant bacterium. 2 players may play a unique cooperative version. (ML)(1-2 Plyn/JS)

BATTLE IN THE "B" RING - Dock with the alien cargo craft. (ML)(1-2 Plyn/JS)

DEMON BIRDS - Escape killer birds. Fast! (ML)(1 Plyn/JS)

FIREBUG - Save the Firebug's eggs from mutants. (ML)(1 Plyn/JS)

HARVEY - Help Harvey the rabbit get points. (ML)(1 Plyn/JS)

LIVEWIRE - Stop stray electrical impulses. (ML)(1 Plyn/JS or PDL)

MAZEWAR - Outfox determined zombies in a maze-like battle field. (ML)(1 Plyn/JS)

PLANETARY DEFENCE - Stop a planetary invasion force. (ML)(1-2 Plyn/JS or PDL)

POPCORN - Catch the falling pop corn. (ML)(1 Plyn/JS)

RETROFIRE - Emergency land on Io. Detailed lander program featuring 3-D isometric grid views of lunar surfaces. Fantastic arcade simulation! (ML)(1 Plyn/JS)

BRICK LAYER - Avoid angry dogs while building a wall. (ML)(1 Plyn/JS)

TWO GUN - An old-type western gunfight. (ML)(2 Plyn/JS) (Translator is required with XLI/XE models.)

ATARI ADVENTURE - You're trapped inside your Atari! A unique text adventure. (ML)(1 Plyn/KB)

TRON - Trap your opponent using your light cycle. (ML)(2 Plyn/JS)

BACKTRACK - Gather globules and avoid the robots. (ML)(1 Plyn/JS)

■ 021 SCI-FI TRIO

3 huge arcade games with space themes

GAUNTLET - This **HUGE** shareware game by Donald Lebeau, features 50 screens of fast animated action! Fly saucer over terrain and through caverns to finally engage the King ship. Multiple weapon systems. Complete instructions. (ML)(1 Plyn/JS)

ORBITAL - Dock with an orbiting space station in this great astrophysics simulation. (ML)(DOC)(1 Plyn/JS)

KARMIC CAVERNS - Dare to explore the Karmic Caverns?? (ML)(1 Plyn/JS)

■ 022 PINBALL #1

2 colorful pinball games created using Pinball Construction Set

STAR DATE - Features a unique star field background. (ML)(1-4 Plyn/JS)

BLACK HOLE - Based on the popular Disney film, The Black Hole. (ML)(1-4 Plyn/JS)

■ 023 PINBALL #2

2 colorful pinball games created using Pinball Construction Set

POLYGONS - Real fast-paced pinball action. (ML)(1-4 Plyn/JS)

ITSY BITSY - Features great flipper action. (ML)(1-4 Plyn/JS)

■ 024 PINBALL #3

2 colorful pinball games created using Pinball Construction Set

CANUCK - "Good pinball game, eh Hosers?" (ML)(1-4 Plyn/JS)

CREEP SHOW - Booooooool! Frightfully good graphics. (ML)(1-4 Plyn/JS)

■ 025 PINBALL #4

2 colorful pinball games created using Pinball Construction Set

ATARI BALL - A fast nicely designed pinball layout. (ML)(1-4 Plyn/JS)

AURA BALL - Furious multi-flipper action. (ML)(1-4 Plyn/JS)

■ 026 TEXT ADVENTURES #1

3 large text adventures featuring historical themes

LIVINGSTONE - Explore the dark

continent in search of fame and fortune. (BAS)(1 Plyr/KB)
DALTON - Pin on the sheriff's badge and capture the outlaw Dalton gang. (BAS)(1 Plyr/KB)
TITANIC - As captain of the Titanic, you must save passengers and valuables. (BAS)(1 Plyr/KB)

■ 027 TEXT ADVENTURES #2

4 huge fantasy text adventures

DUNGEON - Escape from the Dungeon Of The Gods in this Scott Adams-like adventure. (BAS)(1 Plyr/KB)
ARABIAN - Rescue the Princess Jasmine in an adventure worthy of Sinbad. (BAS)(1 Plyr/KB)
WEREWOLF - You've been bitten by a werewolf and have only 6 hours to find the cure. (BAS)(1 Plyr/KB)
SLAVE CELLARS - Rescue Princess Shala from the evil Slave Cellars of Golgoth. (BAS)(1 Plyr/KB)

■ 028 TEXT ADVENTURES #3

3 large adventures for mystery fans
CRIME - Sift through the clues to solve the case of Ms. Fenwick's kidnapping. (BAS)(1 Plyr/KB)
DEADLY MANSION - You're locked in the creepy old mansion with 5 greedy cousins. (BAS)(1 Plyr/KB)
JACK THE RIPPER - Patrol White-chapel district and nab Jack the Ripper. (BAS)(1 Plyr/KB)

■ 029 TEXT ADVENTURES #4

ALASKAN - Find adventure and gold in the frozen wastelands of Alaska. (BAS)(1 Plyr/KB)
BLACK HOLE - Explore Deep Space I, the Cygnus, and escape to tell the world. (BAS)(1 Plyr/KB)
HIGH SCHOOL - Journey through high school and seek a diploma. I'm glad it wasn't like this. (BAS)(1 Plyr/KB)

■ 030 TEXT ADVENTURES #5

DEATH WORLD - Search for survivors on Alpha Beta II mining colony. Beware! (BAS)(1 Plyr/KB)
TREASURE ISLAND - Search Treasure Island for the rich booty of Long John Silver. (BAS)(1 Plyr/KB)
MADHOUSE - You've been wrongly sentenced to a mental asylum. Now escape! (BAS)(1 Plyr/KB)

■ 031 ADVENTURE! & CONSTRUCTION SET

This disk contains ADVENTURE!, a Scott Adams-type text adventure. Plus, with this amazing program you can add to the game or even write your-own large text adventures! Instructions included. Try it. (BAS)(1 Plyr/KB)

■ 032 FANTASY ADVENTURES

DARK TOWER - Locate the keys to the Dark Tower and retrieve the royal sceptre. (BAS)(1-4 Plyr/KB)
KNIGHTS - Rescue the beautiful(??) Princess. (BAS)(1 Plyr/JS)
QUEST 1 - Search dank dungeons for treasure. (BAS)(1 Plyr/KB)
WUMPUS HUNT - Track down the Wumpus in this early classic. (BAS)(1 Plyr/KB)
WUMPUS S.A.M. - A "talking" version

of WUMPUS! Yes, this program actually speaks, but you need to own "S.A.M. THE SOFTWARE VOICE" to make it work. (BAS)(1 Plyr/KB)
VAMPIRE BATS - Lure the determined vampire bats to their doom. (BAS)(1 Plyr/JS)

■ 033 SIMULATIONS #1

BIDGE CONTRACTOR - Bid on international bridge building contracts. (BAS)(1 Plyr/KB)

DAIRY HERD - Build up a profitable dairy herd. (BAS)(1 Plyr/KB)

ELECTRIC CO. - Operate a profitable power company. (BAS)(1 Plyr/KB)

2 1/2 MILE ISLAND - Operate a nuclear power plant. Includes an animated tutorial on nuclear reactors. (BAS)(1 Plyr/KB)

SANTA PARAVIA - Rule the 15th century Italian city-state of Santa Paravia. (BAS)(1-6 Plyr/KB)

■ 034 SIMULATIONS #2

CIVIL WAR - Re-fight major Civil War battles based on actual historical data. (BAS)(1 Plyr/KB)

NUCLEAR PLANT - Operate a nuclear power plant. Includes an animated tutorial on nuclear reactors. (BAS)(1 Plyr/KB)

ELIZA - Tell Eliza your psychological problems and await her responses. An early classic. (BAS)(1 Plyr/KB)

KINGDOM - Another classic nicely done. Rule your kingdom wisely. (BAS)(1 Plyr/KB)

SAFRYLAND - Similar to KINGDOM but with more detail and a printout option. (BAS)(1 Plyr/KB)

TRUCKER - Try being a busy interstate trucker. (BAS)(1 Plyr/KB)

DOG BITE - Make choices on handling angry dogs, as you deliver mail. (BAS)(1 Plyr/KB)

■ 035 GAMES OF SPACE #1

STARWARP - A classic StarTrek simulator. Enter the unknown with the Enterprise crew. Operations Manual included on-screen. (BAS)(1 Plyr/KB)

OUTPOST 2 - Defend your lunar base. (BAS)(1 Plyr/KB)
SAUCER - Shoot down the launching saucers. (BAS)(1 Plyr/JS)

EAGLE LANDER - Land NASA's Eagle on the moon. (BAS)(1 Plyr/JS)

HOUSTON LANDER - Choose any of Jupiter's 5 rugged moons to emergency land on. (BAS)(1 Plyr/JS)

LUNAR LANDER - Another lunar lander. Fast, but fun. (BAS)(1 Plyr/JS)

MOON LANDER II - This lander features great graphics and unique propulsion. (BAS)(1 Plyr/JS)

MOON BASE - Defend your lonely moon base from alien attack. (BAS)(1 Plyr/JS)

■ 036 GAMES OF WAR

MEDIEVAL COMBAT - A colorful graphic board game set in medieval England. Muster your armies to capture kingdoms. Fun! (BAS)(DOC)(2 Plyr/KB and JS)

OUTPOST - Defend your island outpost from attack. (BAS)(1 Plyr/KB)

CONVOY - Lead a British supply convoy through the North Sea in the fall of 1944. (BAS)(1 Plyr/KB and JS)
WORLD POWER - Obtain total global conquest. (BAS)(1 Plyr/KB)
CANNONS - Fire at your opponent's bunker. Rugged scenery varies every game. (BAS)(2 Plyr/JS)
ARTILLERY - Note the wind speed and trajectory, then fire your cannon. (BAS)(2 Plyr/KB)

■ 037 STRATEGY FUN #2

BOGLER - Get 5 markers in a row to win this Pente-like board game. (BAS)(2 Plyr/JS)

TIC TAC TOE - A classic now on computer. (BAS)(1 Plyr/KB)

CLEWSO - Interview murder suspects to solve the crime. (BAS)(1 Plyr/KB)

BOXES - Connect adjacent dots on the grid to complete squares. (BAS)(2 Plyr/JS)

DECODER - Break a 4 letter code to win. (BAS)(1-2 Plyr/KB)

TREASURE - Locate buried pirate treasure through deduction. (BAS)(1 Plyr/KB)

TITAN - Conduct a mining operation on a moon of Saturn. This one's hard, so don't say I didn't warn you. (BAS)(DOC)(1-4 Plyr/JS)

TIGER - Avoid the hungry tiger to reach the jungle doctor. (BAS)(1 Plyr/JS)

GRID MASTER - Try to safely traverse the ethereal grid. (BAS)(1 Plyr/JS)

MAZE - Search mazes to collect boxes. (BAS)(1 Plyr/JS)

TILTHER - Watch the tilt gauges, use the Paddles to tilt a ball into the hole. (BAS)(1 Plyr/PDL)

■ 038 IN PURSUIT OF TRIVIA

TRIVIA - Dozens of trivia questions from 6 categories. Nicely written, with multiple choice answers. (BAS)(1 Plyr or Groups/KB)

TRIVIA QUIZ - Well designed general category trivia quiz with dozens of questions. (BAS)(1 Plyr/KB)

WOF - Great simulation of the popular TV game show with instructions. (BAS)(2-4 Plyr/KB or JS)

APTITUDE - Guess the word in this fun game of word association. (BAS)(1 or More Plyr/KB)

HIDDEN - Unique! Guess hidden meanings through word association. (BAS)(1 or More Plyr/KB)

■ 039 ARCADE FUN #2

MONKEYS - Bounce monkeys to catch the bananas. (BAS)(1 Plyr/JS)

VULTURES - Stop the Golden Vultures. (BAS)(1 Plyr/JS)

GROW WORM - Eat spiders in the centipede's mushroom patch. (BAS)(DOC)(1 Plyr/JS)

GRAVITY - C'mon! Keep the ball between the lines. (BAS)(1 Plyr/JS)

MIDNIGHT TRIP - Press your fire button, then race off into the night. (BAS)(1 Plyr/JS or PDL)

SLAMMER - Slam the lid on the Grouch. (BAS)(1 Plyr/JS)

BAY PILOT - Sail the world for treasure, but avoid pirates. (BAS)(DOC)(1 Plyr/JS)

■ 040 ARCADE FUN #3

C.P.U. - Outwit the crazed computer chips. (BAS)(1 Plyr/JS)

TAG - Try to tag your opponent. (BAS)(2 Plyr/JS)

ENVIRONMENT-X - Penetrate deep into Environment-X and learn its secrets. (BAS)(1 Plyr/JS)

SMOKIE - Beat the Bandit's record 50 hour drive from 'Frisco to NYC. (BAS)(1 Plyr/KB)

JUMP KING - Rev your engine and jump your cycle. (BAS)(1 Plyr/JS)

SABOTAGE - Sabotage the enemy's bunker by destroying fuel cells and lasers. (BAS)(1 Plyr/JS)

JEOPARDY - Climb to the top while under fire. (BAS)(1-2 Plyr/JS)

■ 169 TEXT ADVENTURES #11

MOUSE - A lab experiment went wrong! You must capture 4 man eating mice. (BAS)(1 Plyr/KB)

ROBIN HOOD - Relive the adventures of Robin Hood, but stay clear of the sheriff. (BAS)(1 Plyr/KB)

MOON (BAS) - You're stranded on the moon! Can you escape? (BAS)(1 Plyr/KB)

■ 200 ADVENTURER'S COMPANION #1

Stumped??? Here are complete solutions to 12 commercial text adventures. A unique "step-by-step" system prevents you from learning more than you want to know. Solutions are given for WITNESS, CUT THROATS, INFIDEL, DEADLINE, THE DARK CRYSTAL, GHOST TOWN, MASK OF THE SUN, MISSION ASTEROID, MYSTERY FUN HOUSE, PYRAMID OF DOOM, PIRATE ADVENTURE, and HITCHHIKER'S GUIDE TO THE GALAXY.

■ 201 WHEEL OF FORTUNES

A 2-3 player simulation of that popular TV game show, featuring over 1,000 words or phrases to guess from. Good graphics and sound. Spin the wheel for excitement. (2-3 Plyr/KB)

■ 206 GERMAN LANGUAGE GAMES

AIR-HOECKEY - An excellent simulation of an air-hockey game. (BAS)(1-2 Plyr/JS)

HUBI (ROTO) - Recover fuel canisters from the treacherous mine. (ML)(1 Plyr/JS)

HARDWARE-BASTELER - A computer self-destruct simulation. (ML)

ZAUBERSCHLOSS - A large graphics and text adventure in German. (BAS)(1 Plyr/JS)(Knowledge of German is required.)

MEMORY - A game of Concentration. (BAS)(2 Plyr/JS)

COLORFUL AD DEMO - For a large West German users group. (BAS)

■ 207 PINBALL #5

2 colorful pinball games created using Pinball Construction Set, plus Bumper Ball

COSMOS - Lots of action plus deep space graphics. (ML)(1-4 Plyr/JS)

STARSHIP - Play 4 balls at once!! (ML)(1-4 Plyr/JS)

BUMPER BALL - Control bumpers to

direct the balls. (ML)(DOC)(1-2 Plyr/JS)

■ 208 BEHIND THE PYRAMIDS

A large Ultima-style graphic adventure. Your joystick controlled character explores a lost pyramid on the plains of Giza in 1932. Can you discover the priceless artifact and live to tell? Once a commercial program, but now P.D. this one player game is hours of fun.

■ 209 SPORTS #3

FOOTBALL - Real NFL football strategy based on computer analysis of a complete football season. Choose those plays! (BAS)(DOC)(1-2 Plyr/KB and JS)

VOLLEYBALL - Volleyball action. Limited play on XL/XE models, as 4 joysticks are required. (BAS)(4 Plyr/JS)

OLYMPIC DASH - The 100 metre dash. Exciting, with colorful animation. (ML)(2 Plyr/JS)

SOFTBALL - A truly unique pinball game featuring baseball plays. Load the bases! (ML)(1-4 Plyr/JS)

■ 210 GAMES FOR KIDS

Simple games for kids 6-9 years.

CAR RACE - Race the car along the track. (BAS)(1 Plyr/JS)

DIGGER - Dig for valuable diamonds. (BAS)(1 Plyr/JS)

GALLERY - Try the shooting gallery. (BAS)(1 Plyr/JS)

JELLYFISH - Don't touch the jellyfish! (BAS)(1 Plyr/JS)

GRAB THE APPLE - Grab apples and grow a worm. (BAS)(1 Plyr/JS)

HELICOPTER - Land your chopper on the pads. (BAS)(1 Plyr/JS)

SIMON SAYS - Musical game. (BAS)(1 Plyr/JS)

BAD INPUT - Surprise your friends with this novelty input. (BAS)

CAMEL - Cross the Gobi in this simple text adventure. (BAS)(1 Plyr/KB)

SIEGE - Save the castle from Barbarians. (BAS)(1 Plyr/JS)

PRICE - Guess the price of the object. (BAS)(1 Plyr/KB)

CRAZY DOS - A funny DOS that looks real. (BAS)

■ 211 ARCADE FUN #4

DEVIL'S DOORWAY - Descend to the devil's doorway. (BAS)(1 Plyr/JS)

MISSILE - Use missile defences to protect fuel bunkers. (BAS)(1 Plyr/JS)

ROBOT RAID - Penetrate the alien base and destroy the mother ship. (BAS)(1 Plyr/JS)

BUGS - Round up the bugs and save the picnic. (BAS)(1 Plyr/JS)

KANGA - Move Kanga through treacherous rooms. (BAS)(1 Plyr/JS)

TAXMAN - Collect the \$'s and avoid an audit. (BAS)(1 Plyr/JS)

GRUBS - Can you stop the grubs? (BAS)(1 Plyr/JS)

HATS - Catch the falling hats. (BAS)(1 Plyr/KB)

DEFLECTOR - Build deflectors to direct the ball. (BAS)(1 Plyr/KB)

■ 212 SIMULATIONS #3

RAIL KING - Be first to build a \$300 million railroad empire. Split-screened, with an animated map of USA displaying rail routes. Very detailed. (ML)(DOC)(1-4 Plyr/KB)

B1-BOMBER - Pilot a B-1 supersonic bomber on patrol near Thule AFB. (BAS)(1 Plyr/KB)

BROKER - How would you fare in the stock exchange? (BAS)(1-4 Plyr/JS)

LIFE - How long can your colony last? Classic game of LIFE. (ML)(1 or More Plyr/JS)

NEVADA 21 - Play casino Blackjack (21) against standard Nevada rules. (BAS)(1 Plyr/KB)

■ 213 ADVENTURE FUN #1

LABYRINTH - Search a giant 3-D labyrinth in a solar cart, gather 10 gems, and escape from the Guardians. Fast action, with compass and battery displays. (ML)(1 Plyr/JS)

ROTO - Retrieve fuel cells from the dangerous caverns. Great graphics! (ML)(1 Plyr/JS)

TACTICAL WARFARE - Huge board-type war game featuring tanks, infantry, APCs, hovercraft, etc. on various terrains. Raid, Breakthrough, or Duel scenarios. (BAS)(1-2 Plyr/JS)

WAXWORKS - Uh oh, in this text adventure you've been locked in a wax museum... (ML)(1 Plyr/KB)

■ 214 BOARD GAMES & PUZZLES

MONOPOLY - Play monopoly on a full color game board with player status screens, etc. (BAS)(2 or More Plyr/KB)

CHECKERS - Traditional checkers with 6 levels, plus options. Great value! (ML)(1-2 Plyr/JS)

SUPER REVERSI - Othello, with super 3-D graphics and great play options. (BAS)(Demo or 1-2 Plyr/JS)

AMAZING MAZE - Travel through a realistic 3-D maze. Can you escape? (ML)(1 Plyr/JS)

IN PLACE - Guess a 4-digit number from clues. (BAS)(1-2 Plyr/KB)

NOTE MASTER - Challenging musical memory game. (BAS)(1 Plyr/JS)

■ 215 GAMES OF SPACE #2

ROCKS - Load landing craft with ore and return to mother ship. Features colorful 3-D lunar terrain. (ML)(1 Plyr/JS)

MALPASS - Excellent Defender-type game with radar screen, scrolling terrain, and smart alien craft. (ML)(1 Plyr/JS)

LUNAR PATROL - Fly through moon caverns. Lander-style action with 8 screens. (BAS)(1 Plyr/JS)

MOON LORD - Save Titan Base in this strategic space adventure. Starship screens include Scanner, Status, Phasers, Warp, etc. (BAS)(1 Plyr/JS)

SPY PLANE - Invade the underground alien defences. (BAS)(1 Plyr/JS)

SECTOR - Save Sector 10's reactors from alien attack. Nice graphics. (BAS)(1 Plyr/JS)

■ 216 STRATEGY FUN #3

ROLL 'EM - Paint the passages of the maze. (ML)(1 Plyr/JS)

KNIGHT BATTLE - Defend your castle from enemy attack. (BAS)(2 Plyr/KB)

SUB SEARCH - Locate and destroy enemy subs. (BAS)(1-2 Plyr/JS)

CASINO - Gamble with Craps, High Card, Russian Roulette, and Slots. (BAS)(1 Plyr/KB)

SLOTS - Fun slot machine simulator. (BAS)(1-6 Plyr/KB)

MINER JACK - Mine for gold, but avoid falling rock. (BAS)(1 Plyr/JS)

DE-CRYPTO - Solve published crypto puzzles. (BAS)(1 Plyr/KB)

FRUSTRATION - Fill the grid before your opponent does. (BAS)(1-2 Plyr/JS)

STRATEGY - A board-type game of war. (BAS)(2 Plyr/KB)

HIGH RISE - Use elevators to travel through the building. (ML)(1 Plyr/JS)

■ 217 ARCADE FUN #5

AMPHIBIAN - There's colorful animation and great action, but don't stay on land too long. It's survival of the species. (ML)(1 Plyr/JS)

TRACER - Lure your opponent into crashing, while avoiding the jet trails. (ML)(1-2 Plyr/JS)

CHISELER - Fast, colorful, Breakout-type action. (ML)(2 Plyr/PDL)

ALIEN - Shoot alien ships in the 3-D star field as they fly at you. (ML)(1 Plyr/JS)

TRIAD - Commercial quality graphics and play action. An Archon-type Tic Tac Toe game where the squares must be fought and won. Captivating! (ML)(DOC)(1 Plyr/JS)

PARALLAX - Avoid and gun down enemy craft while flying the space grid. (ML)(1-2 Plyr/JS)

ATOM SMASHER - Use mini-craft to smash atomic elements. Hi-res action that's educational too. (ML)(1 Plyr/JS)

■ 218 ARCADE FUN #6

SPECIAL DELIVERY - There's multi-screen action as Santa delivers gifts at Christmas. Terrific holiday fun. (ML)(1 Plyr/JS)

BATTLE ROOM - CIA vs KGB! Return secrets to your base in a futuristic battle room. (ML)(2 Plyr/JS)

HOPPER - Colorful P.D. clone of Frogger. (ML)(1 Plyr/JS)

INSECTS - A fast 8 level Centipede clone. (ML)(1 Plyr/JS)

VIPER - "Double" centipede action, plus a maze to contend with. (ML)(1 Plyr/JS)

BLAST - Unique version of Invaders. The mother ship deploys ships and shields. (ML)(1 Plyr/JS)

RATS - Watch out for rats on the ladders. (ML)(1 Plyr/JS)

■ 248 TEXT ADVENTURES #6

Four large text adventures from England featuring THE TIME MACHINE, THE GOLDEN BATON, and the ARROW OF DEATH PART I & PART II. (BAS)(1 Plyr/KB)(Translator is required with XL/XE models.)

■ 249 TEXT ADVENTURES #7

Four more exciting text adventures

from England featuring ESCAPE FROM PULSAR 7, CIRCUS, PERSEUS & ANDROMEDA, and the FEASIBILITY EXPERT. (BAS)(1 Plyr/KB)(Translator is required with XL/XE models.)

■ 250 ADVENTURER'S COMPANION #2

Stumped???? Here are complete solutions to 8 commercial text adventures! A unique "step-by-step" system prevents you from learning more than you want to know. Solutions are given for ZORK II, PLANET FALL, TRANSYLVANIA, SEA STALKER, STARCROSS, GRUDS IN SPACE, SUSPENDED, and CASTLE WOLFENSTEINE.

■ 251 SKI KING II

Up to 4 players may ski a timed downhill course. Choose from different slopes or design your own custom slopes. Colorful animated action. Watch out for that rabbit...Ouch! (BAS)(DOC)(1-4 Plyr/JS)

■ 252 CROSSWORD

Solve over 2 dozen complete Crossword puzzles designed on the standard 15x15 grid. In 100% machine language with HELP screen and many features. (1 Plyr/KB)

■ 253 DASH

The Dash Construction Set will actually let you design and play your own colorful and challenging Boulder Dash-like screens! (1 Plyr/JS)(Boulder Dash game is NOT required.)

■ 254 DANDY!

A 1-4 player joystick controlled 26 level scrolling dungeon adventure. Cooperation among players, rather than competition, is the key to success here. An editor mode allows the creation of your own play fields.

■ 255 ALIENS!

Derived from DANDY (but different!), this colorful 1-2 player scrolling action adventure will keep you busy. Cooperation among players, rather than competition, is the key to success here as you board the freighter with marines and save Earth from alien life forms. Joystick controlled, with an editor to create your own play fields.

■ 256 F-15 CONSTRUCTION

This unique Shareware utility by Chris Wareham allows you to edit the flight maps on your F-15 Strike Eagle game. Now, construct bombing missions for any spot on Earth. Get ready to bomb your home town. (F-15 Strike Eagle IS required.)

■ 257 PHONIX I

Fight off waves of intelligent in-

vaders in this excellent Space Invaders clone. Fast colorful arcade action created with Broderbund's Arcade Machine. (ML)(1 Plyr/JS)

■ 258 THE ORB

Fly the Orb over scrolling alien landscapes to systematically destroy the enemy. This British game features colorful action similar to Dimension X. (ML)(1 Plyr/JS)

■ 259 NFL ANALYSIS

This interesting utility will rank NFL teams by offensive, defensive, and overall strength. Accurately predict game scores and make comparisons of these predictions to point spread predictions with recommendations. (Written in Compiled Turbo Basic for Atari XL/XE models only.)

■ 260 COMPUTER MONOPOLY

Play 3 computer created players in this fun solitaire version of the famous board game. Joystick control and smooth play action make it easy to buy, sell, mortgage, and trade. This game is addictive! (1 Plyr/JS)

■ 261 GUNNERS

This unique 2 player game allows you to play on one Atari OR on two remote Ataris with a modem! Use joysticks to fire your cannons over a mountain at your opponent's fortification by selecting the angle of trajectory and explosive charge. Excellent sound and graphics. When playing by modem, the game even features a "chat" mode.

■ 262 QUEST FOR POWER

In this large Ultima-style graphic adventure your joystick controlled character explores early Britain. Can you discover the Scroll of Truth and return to Camelot alive? Once a commercial program, but now P.D., this one is fascinating. (1 Plyr/JS)

■ 263 MICRO-MAP

If you enjoyed playing BENEATH THE PYRAMIDS and QUEST FOR POWER, then you'll love this utility! Edit the scrolling playseens with this program and merge them to create your own graphic adventures.

■ 264 PINBALL #6

2 colorful pinball games created using Pinball Construction Set.

STAR DUST - Play up to 4 balls at once! Imaginative design. (ML)(1-4 Plyr/JS)

STAR4000 - Flip asteroids in this unique sci-fi pinball game. (ML)(1-4 Plyr/JS)

■ 265 PINBALL #7

2 colorful pinball games created using Pinball Construction Set.

MOON LOVER - Lots of bells and whistles here. (ML)(1-4 Plyr/JS)

SHARPIE - This one's for "sharpies" only! (ML)(1-4 Plyr/JS)

■ 266 PINBALL #8

2 colorful pinball games created using Pinball Construction Set.

DEATH ZONE - Great plays using 3 balls at once. (ML)(1-4 Plyr/JS)

W.A.C.E. BALL - Good multi-ball action. (ML)(1-4 Plyr/JS)

■ 267 TEXT ADVENTURES #8

Three large text adventures with science fiction themes.

ALIEN ADVENTURE - Explore the alien craft and solve its mystery. (BAS)(1 Plyn/KB)

ARROW ONE - You've made a horrifying discovery on an alien planet. (BAS)(1 Plyn/KB)

SABOTAGE - Futuristic adventure reins in Operation Sabotage. (BAS)(1 Plyn/KB)

■ 268 TEXT ADVENTURES #9

Two huge adventures to challenge your mind.

NEW YORK ADVENTURE - Survive a night in NYC, get concert tickets, then leave if you can. Well designed, with simple sound and graphic effects. (BAS)(1 Plyn/KB)

IT'S TIME - Use time travel to solve this mystery. (BAS)(1 Plyn/KB)

■ 269 TEXT ADVENTURES #10

Three stimulating adventures.

ATLANTIS - Explore and destroy the lost continent. (BAS)(1 Plyn/KB)

VOLCANO - Get off the island before the volcano erupts. (BAS)(1 Plyn/KB)

JAMES BRAND - You're agent James Brand and you must save the President from Dr. Evil. (BAS)(1 Plyn/KB)

■ 270 SIMULATIONS #4

ANCIENT EMPIRE - Can you expand your empire? Four challenging historical scenarios based on actual ancient Mediterranean civilizations. (BAS)(DOC)(1 Plyn/KB)

DERBY - Animated horse racing featuring a racing forms display. (BAS)(1-6 Plyn/JS)

ABC SPORTS - Make a profit running the ABC Sports Network. (BAS)(1 Plyn/KB)

BLACK FRIDAY - Can you profit in the stock market? (BAS)(1-4 Plyn/KB)

LIFE - Demonstrates the generation of life. (ML)(1 Plyn/JS)

■ 271 GERMANY'S HITS #1

Many consider these to be just as good as commercial games.

CAVE LORD - Search the mysterious caverns for gold in this animated masterpiece from Germany. Fabulous graphics and music. (ML)(1 Plyn/JS)

MAD MARBLE MAZE - Guide the marble along the maze in this clone of Marble Madness. (ML)(1 Plyn/JS)

ZAND'S LABYRINTH - Catch the worm in the maze as your caterpillar grows. Stunning graphics and professional arcade action. (ML)(DOC) (Demo mode or 1-2 Plyn/JS)

■ 272 GERMANY'S HITS #2

So good, you won't believe they're in BASIC.

AGENT - Search the complex for secret files in this animated Spy vs Spy clone. Watch out for bombs! (BAS)(1 Plyn/JS)

KITTEN - Collect flowers in this climber-type game. Contains an editor to create your own game screens. Really "cute". (BAS)(1 Plyn/JS)

MINI BILLIARDS - Sink 2 balls in the corner pocket. (BAS)(1 Plyn/JS)

REVERSE - A unique number position puzzle (press "1" for solution). (BAS)(1 Plyn/KB)

SMURFS - Help the Smurf get through the forest and caves. Colorful animation. (BAS)(1 Plyn/JS)

■ 273 GERMANY'S HITS #3

You won't believe these are BASIC games!

DASH - Nice clone of Boulder Dash, featuring an editor to create your own game screens. (BAS)(1 Plyn/JS)

BALL HUNT - An interesting Pong-type. Push both sticks forward to start the ball. (BAS)(2 Plyn/JS)

JACK THE DIGGER - Use a drilling rig to collect ore in this Oil Wells clone. Smooth colorful graphics. (BAS)(1 Plyn/JS)

GEROELLHEIMER - Hit the Meany with the pulsating block. Twenty screens, plus an editor to create your own! (BAS)(1 Plyn/JS)

■ 274 GERMANY'S HITS #4

Great BASIC action games!

BANK PANIC - Test you nerve and marksmanship. Can you tell a customer from a bank robber? (BAS)(1 Plyn/JS)

REVOLVER - Help the kid shoot 10 bottles. Fun! (BAS)(1 Plyn/JS)

ROCKET MAN - Collect crystals from the planet's surface. (BAS)(1 Plyn/JS)

MISSION-X - Fly chopper and rescue hostages from the caverns. (BAS)(1 Plyn/JS)

SKY WAR - Avoid and destroy the enemy with your spaceship. Good graphics. (BAS)(1 Plyn/JS)

■ 275 GERMANY'S HITS #5

More BASIC hits from Germany!

CAMBODIA - Fly rescue missions to bring back POW's. (BAS)(1 Plyn/JS)

ROLLER BALL - Create a track for the ball to roll on. Terrific graphics! (BAS)(1 Plyn/JS)

ARAX - Bomb enemy installations in this Xevious-type mission. (BAS)(1 Plyn/JS)

CRAZY EGON - Help Egon collect the gold. (BAS)(1 Plyn/JS)

NASEN JAC (JACK THE NOSE) - Get the treasures, avoid the bats, and escape to higher levels. (BAS)(1 Plyn/JS)

HANGMAN - Guess English or German words. (BAS)(1 Plyn/JS)

■ 276 ADVENTURE FUN #2

DESTINATION - Your mission: explore the maze-like enemy complex. Animated graphics. (ML)(1 Plyn/JS)

LAST STAR - Blast the aliens. (ML)(1 Plyn/JS)

DESMOND'S DUNGEON - Descend into Desmond's Dungeon and collect the gold, but look out for spiders. Excellent. (ML)(1 Plyn/JS)

BLACK HAWK - A scrolling chopper attack over Nam. Use stick to control chopper, cannons, and rockets. (ML)(1-2 Plyn/JS) (Translator is required with XLI/FE models.)

SUBMISSION - Travel through

dungeons to save the girl. Great graphics! (1 Plyn/JS)

ALPHA SHIELD - Destroy the alpha reactor while avoiding the shields. (ML)(1 Plyn/JS)

■ 277 ADVENTURE FUN #3

LOST TOMB - Explore a mysterious pyramid deep in the Amazon. Huge adventure with many screens. (ML)(1 Plyn/JS)

ZETA AFFAIR - Space War! Propel your ship and fire on your opponent. (ML)(1-2 Plyn/JS)

JUNGLE BOY - Climb vines to escape the jungle. (ML)(1 Plyn/JS)

BLONDELL - Fly the magic carpet in search of the Princess. (ML)(1 Plyn/JS)

KARMIC CAVERNS II - Dare to explore Karmic Caverns. New larger version. (ML)(1 Plyn/JS)

■ 278 STRATEGY FUN #4

CHESS - Enjoy a great game of Chess. (ML)(1 Plyn/JS)

CRAZY-8 - Crazy Eights, the card game. (ML)(1 Plyn/KB)

QS REVERSI - 12 levels of Reversi. (ML)(DOC)(1 Plyn/KB)

SMACK - 4 card games similar to Concentration. (ML)(1-2 Plyn/JS)

WATOR - An ecological simulation similar to the game of Life. Set parameters and watch the fittest survive. (ML)(1 Plyn/KB)

DASH - Great Boulder Dash clone from Germany as good as the original. (ML)(1 Plyn/JS)

■ 279 STRATEGY FUN #5

CIPHER - Encode and decode messages. 3 different cipher techniques, including a military-type. (BAS)(1 Plyn/KB)

SOLITAIRE - Great Solitaire card game. Press [SPACE] to shuffle deck. (ML)(1 Plyn/JS)

HEXAPAWN - Chess on a 3x3 grid. Beware, the computer learns as it plays! (BAS)(1 Plyn/KB)

ENUMERATOR - Once you get the hang of this game you're hooked! (BAS)(Demo or 1-2 Plyn/KB)

AGAIN - Musical Merlin-type puzzle from Germany. (BAS)(1 Plyn/KB)

HANGMAN - This Hangman features 345 words on 3 levels. (BAS)(1 Plyn/KB) (Translator is required with XLI/FE models.)

■ 280 ARCADE FUN #7

GETAWAY - Collect money and race the city streets to make your getaway. (ML)(1 Plyn/JS)

CROSS FIRE - Shoot ships on the grid to defend the city. (ML)(1 Plyn/JS)

XAGON - Grab gold in this Q*bert-like hit from Australia. (ML)(1 Plyn/JS)

SPACE BALL - Deflect the rolling ball to keep it on the 3-D "space court". Great graphics action from Germany. (ML)(1-2 Plyn/JS)

TWO MAZE - A nice large-mazed Pac-Man clone. (ML)(1 Plyn/JS)

CATNAP - Can't sleep? Throw alarm clocks and knock the yawning cats off the wall. (ML)(1 Plyn/JS)

■ 281 ARCADE FUN #8

SUPER BUNNY - Punch out those parasites. Press [START] if the play should freeze! (ML)(DOC)(1 Plyr/JS)
TROLL WAR II - Out maneuver opponent on the grid, then go to combat screen. (ML)(2 Plyr/JS)
JUMPING JIM - Descend ladder maze to collect modules. (ML)(1-2 Plyr/JS)
EXTERMINATOR - Destroy menacing spiders on the web. (ML)(1 Plyr/JS)

■ 282 ARCADE FUN #9

MISTER M - Help Mr. M eat all food in sight, then run to the john. Funny! (ML)(1 Plyr/JS)

HARD HAT WILLIE - Put on Willie's hard hat and hunt for eggs. (ML)(1 Plyr/JS)

POLAR EXPEDITION - Defend sub from air attack. (ML)(1 Plyr/JS)

WUMPUS HUNT - A graphics version of the Wumpus classic. Written in Action! (ML)(1 Plyr/JS)

SCOOTER - Race cars around a grid. (ML)(1 Plyr/JS)

■ 283 ARCADE FUN #10

KONG - A neat Donkey Kong clone featuring the flames, barrels, springs, and moving ladders. (BAS)(1 Plyr/JS)

DODGE RACER - Race the maze and avoid cars in this arcade hit. (BAS)(1-4 Plyr/JS)

THE RED BARON - Dog fight the Red Baron in this simple flight simulator. (BAS)(1 Plyr/JS)

SHERLOCK - Search the maze to find the golden chalice. (BAS)(1 Plyr/JS)

NUTS - Assist Sam the squirrel to collect nuts. (BAS)(1 Plyr/JS)

SPY PLANE - Fly the cavernous base and engage the enemy. (BAS)(1 Plyr/JS)

■ 284 STAR TREK CLASSICS #2

2 huge Star Trek simulations

STAR TREK III - Star Trek III is an enhanced version of *STAR TREK* (Disk #001). Go where no man has gone before. (BAS)(DOC)(1 Plyr/KB)

STAR TREK - Fly missions as directed by Starbase Command to save Federation Starbases from Klingon attack. Character graphics and tactical screens. (BAS)(1 Plyr/KB)

■ 287 ARCADE FUN #11

BALL BENDER - Direct the ball over the target to amass points. (ML)(1 Plyr/JS)

SLOT MACHINE - A futuristic slot machine from Germany featuring great graphics. (ML)(DOC)(1 Plyr/JS)

COSMIC - Destroy the mesotron canon. (ML)(1 Plyr/JS)

KILL ZONE - Protect your shields from attack. (ML)(1-2 Plyr/JS)

DARK STAR - Collect boxes, but don't box yourself in. (ML)(1 Plyr/JS)

ANDROTON - A sci-fi Pac-Man game. (ML)(1 Plyr/JS)

MANIAC - Hunt down robots in a maze. (ML)(1 Plyr/JS)

AVALANCHE - Hop the blocks in this Q*bert-type clone. (ML)(1 Plyr/JS)

DOUBLE-SIDED

THEME DISKS

■ D10 COMPUTERIZED CRICKET

From England, comes a great simulation of limited-over Cricket. Choose from 6 touring parties (U.K., Australia, India, Pakistan, West Indies, and New Zealand). Great play strategy features scoreboards and Benauds summaries. (1-2 Plyr/KB)

■ D11 TRIVIA QUIZ

A huge Trivia Quiz in 100% machine language. Play alone or with up to 2 friends (2 on XL/XE). Choose the correct answer, from 4 given, to win points. Over 300 ready made questions included. Plus, there's even a utility to let you create your own trivia files. (1-3 Plyr/KB)

■ D12 SUPER QUIZ I

Super Quiz is quite simply the ultimate trivia game! It supports 2, 3, or 4 players or teams, and is similar to Trivial Pursuit. Features 3 levels of difficulty and 6 categories of questions (Words, Sports, Science, Movies, History, and Geography). Side 2 features a data disk containing hundreds of original questions. Hours of fun! (2-4 Plyr/JS or KB)

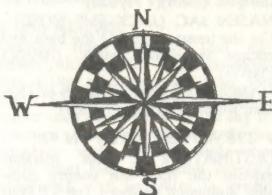

■ D13 SUPER QUIZ II

Now, 2 additional data disks for use with SUPER QUIZ I above! Hundreds more original questions for added hours of fun. (SUPER QUIZ I is required.)

■ D-51 ACTION! GAMES

Side one of this disk contains 8 fun filled ready-to-run arcade games written in Action! language, including Rat's Revenge, Anglerworms II, Breakout, Warp Attack, Gem, Bounce, Pong, and Snails. The Action! cartridge is NOT required to play these games, but for those who do have it, side two also contains the source code.

■ D-52 AMERICAS CUP

It's Australia II vs Liberty in this unique 2 player yachting simulation from Australia by Ken Hall. Design the fastest boat, select optimum sails, and sail the course to beat your opponent. Features include authentic sailing tactics, color animation, sound effects, and 6 courses. Terrific detail. Watch out for storms! (2 Plyr/JS and KB) (Written in Turbo Basic for Atari XL/XE models only.)

■ D-53 TACTREK

Written in FORTH by a former Atari employee, TACTREK is a strategic space war game for 1 or 2 players. Defend the Enterprise using an animated tactical display screen. Control maneuvering, phasers, torpedoes, probes, scanners, and energy distribution. (1-2 Plyr/KB)

■ D-54 SURF'S UP!

Designed for commercial release but now in the Public Domain, Surf's Up features incredible machine language play action and animated graphics. Think you can survive riding the wild surf? The only thing missing from this game is The Beach Boys. (1 Plyr/JS)

■ D-55 COSMIC CRUSADERS

Can you beat your opponents and ultimately defeat the evil Empire?? Use your joystick to dispatch your fleets and conquer neighbouring planets in this detailed 1-9 player strategic space war game by Joe Delman. The game is unique in that you must also contend with an intelligent computer generated opponent. Written in compiled BASIC, this game is fun to play!

■ D-56 INFANTRY SQUAD

Your mission is to eliminate all enemy units from the battlefield while ensuring your men survive. It requires tactical skill played at the infantry squad level. 15 different scenarios are included, plus an Editor to create your own scenarios and battlefields. Once a commercial program, this challenging game is now released to the Public Domain. (1 Plyr/JS)

■ D-57 GOLDHUNT II+

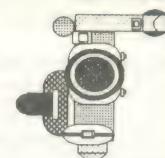

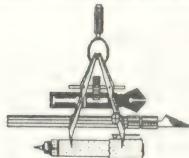

A large Ultima-type graphics adventure in which you must hunt for treasure in a secret underground complex. An Editor is also included to let you create your own custom screens. Shareware by Sam Gueydan. (1 Plyr/KB and JS)

■ D-58 PARADOX

Here's a large scale illustrated text adventure from Germany featuring over 25 color graphics screens! All text has been translated into English. You'll have fun solving this challenging mystery! (1 Plyr/KB)

Do you enjoy quizzes, math puzzles, or word games?

Then be sure to have a look in the EDUCATIONAL section of the catalogue!

CONCERNING PICTURE FILES

Pictures referred to as "MicroPainter" files are the same as P.D. Paint (Theme Disk #070) files. They both are saved in a 62 sector "uncondensed" format. Pictures referred to as "Microllustrator" files are the same as KOALA Pad and Atari Artist files. They are saved in what is known as a "condensed" format, requiring fewer disk sectors.

All Microllustrator (Koala Pad! Atari Artist) picture files may also be easily converted to an uncondensed 62 sector format for use with MicroPainter (P.D. PAINT). Simply obtain the utility "CONVERT" on Theme Disk #199.

Pictures on the KOALA ART DISKS have been carefully selected from many Atari 8-bit Public Domain collections and are the very best available! Although there are more KOALA pictures in other collections, they are of a poorer quality and were not included in the BELLCOM collection. Efforts have been made to avoid duplication.

■ 055 SHOWOFF #1

CES DEMO - Awesome animation and sound demo featuring a walking robot and spaceship. (ML)

JANE'S PROGRAM - Computer art, music, and even a game too. (ML)(Requires joystick)

BALL SONG - 3-D ball bouncing to lively music. (ML)

HOLLYWOOD MEDIEVAL - Search through awesome 3-D mazes for the medieval melodies. (ML)(DOC)(Joystick required)

PENCILS - Colored pencils in GTIA graphics. (ML)

BOINK - Amazing 8-bit version of Amiga's bouncing ball demo! (ML)

ELLIPSE - Beautiful GTIA graphics display. (BAS)

MAGIC - Great 3-D effect of a magic carpet flying around pillars. (BAS)

PASSIONATELY - "Passionately" by Gary Gilbertson. Astounding synthesized music. (ML)

■ 056 GRAPHICS DEMOS #1

BALL SONG II - The 3-D bouncing ball again, with a new musical score. (ML)

APPLE KILL - Can Atari survive an attack from Apple? (BAS)

STARS 3-D - Stunning 3-D animated star scene. (BAS)

FAUCET - The GTIA dripping faucet demo. (BAS)

HYPNOSIS - View pulsating hypnotic patterns. (ML)

PLUS... 5 pictures drawn using Fun With Art, featuring up to 128 colors, and a FWA picture viewer. Includes June '85 ANTIC Cover, Rohan the Beast, Garfield the Cat, Spaceship Docking, and The Turbo III.

■ 057 GRAPHICS DEMOS #2

SWORD DEMO - Colorful sword in GTIA graphics. (BAS)

PHOTO - Animated digitized photo of a winking girl. (ML)

LOGO - Beautiful Atari logo. (BAS)

OCTOBER - Impressive sound and graphics. (BAS)

VIOLENCE - An "explosive" sight and sound demo! (BAS)

BIRTHDAY - A computerized birthday card. (BAS)

ATARI 400 - The first Atari! (BAS)

CLOCK - A working Gr.8 clock. (BAS)

PIM DEMO - Animated lunar landscape. (BAS)

STARSHIP - UFOs flying at blinding speed. (BAS)

GTIA 1 - Copper cylinders, plus hypnotic animation. (BAS)

GREEN HOLE - Spiralling green hole. (BAS)

CUBES - Create 3-D cube art. (BAS)

PYRAMID - Beautiful moire effects. (BAS)

SKETCH PAD - Sketch pad drawing tool. (BAS)

PAGE FLIP - Neat 3-D page flipping demo. (BAS)

GTIA 2 - Create outrageous GTIA designs. (BAS)

ONE LINER - 20 short graphics demos. (BAS)

■ 058 ARTDOS & FONTS

This disk contains "ARTDOS", a modified DOS 2 featuring most of the regular DOS commands plus several graphics commands for use with Microllustrator (KOALA) and MicroPainter (P.D. PAINT) files. ARTDOS loads and displays most of your pictures and character fonts directly from DOS. Also included are 2 of the best character font editing programs available. Use FONT to design your own custom fonts. Then with FONT DATA, create a subroutine to use fonts created with FONT in your own BASIC programs. An example and instructions are included, along with 21 ready made character fonts, including STYLISH, FANCY1, FANCY2, FANCY3, GOTHIC, MODERNE, FANCY, AVANT, BLOCK, JERRY, JIGSAW, HEBREW, HIRO, SCRIPT, COMPUTER, STRANGE, STOP, SPACE, ROMAN, GREEK, and OUTLINE.

■ 059 GRAPHICS UTILITIES #1

Z-PLOT - 3-D isometric plotter to plot functions (3-D grid designs) to screen or to an Epson compatible printer. (BAS)

Z- PLOT 1020 - 3-D isometric plotter for the Atari 1020 plotter. (BAS)

PATTERNS - Create unique patterns (even quilt patterns). (BAS)

SPIRAL GRAPHICS - Create dazzling spiral graphics, then save to disk or an Epson compatible printer. (BAS)

GR.10 PAINTER - Sketch pad drawing tool. (BAS)

FRACTAL - Small experiment with fractal graphics. (BAS)

FUJI I - 3-D rotational wire-frame plotting demo. (BAS)

FUJI II - Similar to above, but more complex. (BAS)

PIM CREATE - Edit Player Missile shapes to create colorful animation effects. Many features. (BAS)

PIM SETUP - This program questions you on the Player Missile graphics you wish to set up, then creates a subroutine to form the basis for your own program. A knowledge of PIM graphics is required. (BAS)

PIM DESIGN - Lets you design your own Player Missile shapes, then provides data for PIM SETUP. (BAS)

256 COLOR - Displays all 256 colors with a value reference. (BAS)

■ 060 SNOWFALL

Create colorful computerized greeting cards using your favourite picture file for the background scene. These beautiful "Snowfall" greetings feature an animated snowfall effect and a scrolling message of your choice. They are 100% machine language and can be made to auto-run on a disk. Six sample cards included: Frosty the Snowman, Santa, The McKenzie Brothers ("Eh, hossers?"), Christmas Tree (with flashing lights and star), Snoopy Greetings, and Pine Forest ("For unto us a Child is born..."). Send one to an Atari friend!

■ 061 MOVIES #1

8 animated Movie Maker films with an autoplayer. You don't need to own Movie Maker to enjoy them. Includes Animated Countdown Boards, Dancing Feet, Bambi Meets Godzilla Parts I & II, Flying Hawks, Bath Time Bubbles, Rotating 3-D Cubes, and Break Dancing Chicken(?!).

■ 062 MOVIES #2

7 animated Movie Maker films with an autoplayer. You don't need to own Movie Maker to enjoy them. Includes Hooz Behind the Doors?, Animated Designs, Lips, The Happy New Year

Juggler, Funny MTV Logo, 'Twas the Night Before Christmas, and Starship Enterprise.

■ 063 DIGITIZED PHOTOS #1

9 hi-res digitized photographs with a slide viewer. Includes U.S. Dollar, Music Staff, Uncle Sam, Closeup of Face, Girl's Face, William Shakespeare, Map of World, Baby Raccoon, and 3-D Function. SCROLL PIC is also included. It allows you to enlarge any 62 sector P.D. PAINT picture file or digitized photo to 4 times its original size, then use a joystick to scroll across it. (Translator is required with XL/XE models.)

■ 064 DIGITIZED PHOTOS #2

9 hi-res digitized photographs with a slide viewer. Includes Girl's Portrait, Girl's Face, Computer Chips, Cowboy, Tooth Brush and Paste, Wrist-watch Dial, Winston Churchill, Little Girl With Puppy, and Gadget the Gremlin. SCROLL PIC is also included. It allows you to enlarge any 62 sector P.D. PAINT picture file or digitized photo to 4 times its original size, then use a joystick to scroll across it. (Translator is required with XL/XE models.)

■ 065 KOALA UTILITIES & PICCS

PIC LOAD - Load and display any Micrilliustrator (Koala). Fun With Art, MicroPainter, or P.D. PAINT picture file. Use with G-HANDLER to dump pictures to your Epson or Star compatible printer. (BAS)(DOC)

G-HANDLER - Print out listings which include graphics characters, or print your picture files on an Epson or Star compatible printer. (ML)(DOC)

PICTURE PRINT - Display, edit, and then print any Micrilliustrator (Koala) picture on a Star, NEC, or Epson compatible printer. (BAS)(DOC)

KOALA PLOT - Plot any Micrilliustrator (Koala) picture on the Auri 1020 plotter. (BAS)

LANTERN - Show all Micrilliustrator (Koala) pictures or [SELECT] individual files for viewing. (BAS)

K.P. VIEWER - Continuous running Micrilliustrator (Koala) slide viewer with a slow fader effect. (BAS)

K.P. SHOW - Continuous running viewer for Micrilliustrator (Koala) pictures. (BAS) Plus, 9 KOALA picture files: NASA, APOLLO, SHUTTLE, LIFE, SPACE, EINSTEIN, MARS, SATURN LANDER, and BELLCOM.

■ 066 KOALA ART #1 [SAMPLER]

22 selected KOALA art pictures complete with viewers for the 130XE and other Atari models. Picture files include ALIEN, POPEY, MICKEY, KING TUT, ATARI LOGO, SPARKY, SPY VS SPY, BUCKSHOT, REFLECTION, NIGHT OWL, FRISCO, DESTROYER, ZORK, JIM HOOD, MADONNA, CYNDI BOWIE, DENNIS, PURPLE, ROSE, SCAR FACE, and BELLCOM.

■ 067 KOALA ART #2 [SAMPLER]

21 selected KOALA art pictures complete with viewers for the 130XE and other Atari models. Picture files include BISMARCK, CLOUSEAU, GADGET, SANTA, GIRL, WEEDS, TREE, BOAT, CLOUDS, SUN, SUNSET, BLUE ANGELS, FOG, GARDEN, SNOOPY 1, SNOOPY 3, FRANKENSTIEN, SATURN LANDER, MOONSET, WHITE HOUSE, and BELLCOM.

■ 070 P.D. PAINT

P.D. PAINT is a machine language clone of the famous MicroPainter drawing program that's better than the original commercial version! Now you can easily create your own colorful works of art. Complete with instructions and 7 sample pictures with a viewer program, including BISMARCK, BLUE ANGELS, BOAT, SATURN, SUNSET, CLOUDS, and ALIEN. The SCROLL PIC is also included. It allows you to enlarge any 62 sector P.D. PAINT picture file to 4 times its original size, then use a joystick to scroll across it. (Translator is required with XL/XE models.)

■ 186 MANDELBROT SETS #1

Impressed with fractal graphics? Now, you too can explore the strange yet fascinating world of fractals! Contains everything needed to create your own colorful pictures from the Mandelbrot Set, including instructions and an informative tutorial on fractals.

■ 187 MANDELBROT SETS #2

The wondrous world of fractals is before you! 22 stunning views of the Mandelbrot Set display a myriad of colors and patterns. See organic-looking tendrils and circular sweeps, and whirls and whorls suggestive of galaxies. All scenes were created using MANDELBROT SETS #1.

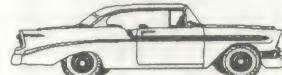

■ 188 TECHNICOLOR DREAM DEMO

A collection of 8 drawings created using the Technicolor Dream drawing program, including CHURCH, POD, ROME, RAIN, CON, ZSOFT, USGOLD, CREST.

■ 189 THE ALIEN!

A hi-res animated graphics demo featuring the creature from the popular science fiction movie, ALIENS.

■ 190 CLASSIC CARS

A splendid collection of digitized photos featuring 8 classic cars, complete with a slide viewer program, including PACKARD, PONTIAC, EDSSEL, CADDY, P1961, CHEVY, FORD, CAMERO, ZAPPA.

■ 191 MOVIES #3

6 animated Movie Maker films with an autoplayer. You don't need to own Movie Maker to enjoy them. Includes Poor Sick Pussy Cat, Out Of The Hat, Couple On The Town, The Rose, An

Angry Exchange, and Dog vs Hydrant.

■ 192 STEVE DONG COLLECTION

7 dazzling works of art featuring multiple DLI color effects. Scenes include Rat Town, Black Panther, Space Shuttle and Old Glory, Spray (waves crashing on a rocky shore), Revenge, Anguish, and the magnificent Flame (old sailing ship with figure head). Each of these unique pictures is a separate machine language autorun program. Must be seen!

■ 195 SHOWOFF #2

3 outstanding sight and sound demos.

CES '86 - A swan flies past a colorful 3-D rotating fuji symbol in this fantastic demo from CES '86. (ML)

FUJI BONK - Bouncing 3-D fuji symbol by Xanth Park! Eat your heart out Amiga owners. (ML)

AUTO - Colorful GTIA drawing of a sports car with animated pistons. (ML)

■ 196 GRAPHICS DEMOS #3

EARTH - Rotating globe. (ML)

KALEIDOSCOPE - Unique 3-D kaleidoscopic effects. (ML)

ATARI 800 - Atari 800 sales demo from the past. (BAS)

SUNRISE - Sun bursting over an animated landscape. (BAS)

COKE - The COKE logo. (ML)

CRYSTAL - Crystal growth simulation. (BAS)

PLUS... 22 additional sight and sound demos for your enjoyment includes HYPNOSIS, BLACK HOLE, GTIA DEMO 1, GTIA DEMO 2, LIGHT DEMO, AUTO, LOGO 1, LOGO 2, US FLAG, VALENTINE, SWIRLS, BALL, COLORS, RAINBOW, ROLL DICE, GR10 DEMO, GR09 DEMO, GR11 DEMO, GTIA LOGO, SNOWFLAKE, TRIANGLE, and BALL SONG.

■ 197 KOALA ART #3 [STAR TREK]

18 great Koala pictures with a Star Trek theme by Micro-Sis, complete with a viewer. Includes ENTERPRISE, SHIP'S PLANS, UHURA, CHEKOV, INCIDENT, TPRING, TRIBBLE, LIFT, MIRROR, REMEMBER, ROMULAN, SULU, SHIPS, KHANS, KIRK, FLY PAST, STAR TREK, TITAN.

■ 199 GRAPHICS UTILITIES #2

CONVERT - Now, easily convert your Atari art pictures from one format to another for use with your favourite drawing programs! Supports MicroPainter, P.D. PAINT, Fun With Art, and Micrilliustrator (Koala Pad/Atari Artist). (BAS)(DOC)

ULTRA FONT - The Ultimate Font Editor! Professional quality with many features, including 4 built in fonts. You must see it. (ML)

FADER II - A Micrilliustrator (Koala) picture viewer with fader effects. (ML)

PIC PRINT - Displays and prints Micrilliustrator (Koala) pictures on an Epson compatible. (BAS)

SEE PIC - A Microllustrator (Koala) graphics viewer/printer. Select resolution options to view or print on Epson compatible printers. (ML)

MP LOADER - Load MicroPainter (P.D. PAINT) pictures from BASIC. (BAS)

PAINTER - Nice Gr.9/10/11 drawing tool. (BAS)

MULTI-COLOR - Create customized 23 color Gr.0 screen displays for your programs. (BAS)

DRAW CUBE - Create 3-D cube drawings. (BAS)

DIGI-DRAFT - Simple, but fun drawing tool. (BAS)

■ 203 MOVIES #4

6 animated Movie Maker films with an autoplayer. You don't need to own Movie Maker to enjoy them. Includes Animated Musical Instruments, The Walkers Parts I & II, Dancing Boxes, Musical Animation Effects, and Sliding Musical Instruments.

■ 204 GRAPHICS UTILITIES #3

EDMAC - Macro Edit is a detailed character set editor and/or screen editor featuring macros. Shareware by John Oakley. (ML)(DOC)

GRAPHIC DUMP 3.0 - Superb screen dump for Gr.7+ pictures and Gr.8 screens, including Microllustrator and MicroPainter files. Supports Epson, Star, Brother, and Atari XMM80 printers. Will also dump pictures to disk as verbatim files for use with Paper Clip. Shareware by Trent Dudley. (BAS)

CONVERTER - The MicroPainter and Fun With Art "Automatic Picture Converter"! (ML)

SUPER-GRAF - Draws sine waves, polygons, flowers, etc., and saves them in MicroPainter format. (BAS)

PICTURE DUMP - Dump MicroPainter and Microllustrator pictures to Epson, Star, NEC, or ProWriter printers. Lets you adjust shades before printing. Great! (BAS)

SMOOTH - Utility to "smoooooth" out mode 9 graphics images in your BASIC programs. (BAS)

■ 205 GRAPHICS DEMOS #4

T-SHIRT CONSTRUCTION SET - Reverses MicroPainter and Microllustrator pictures for use on T-shirts. Now you can computer design your own iron-on! (BAS)

T-SHIRT - Collection of over 2 dozen humorous T-Shirt sayings. The graphics files may be used with the T-Shirt Construction Set. (ML)

CAMELOT - King Arthur's twirling sword featuring great "metallic" sounds. (ML)

FIRE - Sit back and enjoy a flickering log fire. (ML)

FARBEN - 24 colors displayed in Gr.0?? (BAS)

SPRITE DEMO - Demo on using P/M graphics in a menu. (BAS)

RAQUEL - Use any printer to create a unique ASCII character picture of Raquel Welsh. (BAS)

MODEL - Use any printer to create an ASCII character portrait of a young girl. (BAS)

PLUS... 18 impressive GTIA color

graphics demos including BRASS, RINGS, CUBES, SWIRLS, MOIRE, SPHERES, ROLLS, etc.

■ 219 X-EXPRESS

With The Graphics Trilogy, you can create professional looking graphics screens for your own games and utilities. Use AMUCE to design custom graphics characters in any of 6 text screens. The Basic Image Processor (BIP) is a graphics drawing program to use with any graphics mode. The Mixed Mode Program Composer (MMPIC) lets you easily prepare multi-window graphics screens. Complete with instructions and tutorials. Can be used by the beginning graphics programmer with a knowledge of simple BASIC programming. Shareware by Tim Kilby.

■ 220 VIDEO EDITOR

Very unique graphics editing program written in FORTH! (This program requires FORTH to run!)

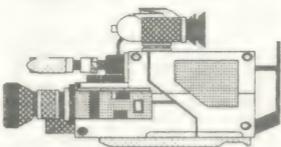

■ 221 VIDEO BLITZ!

This huge 523 sector demo is one of the best yet! The Atari logo hovers over a scrolling sea of digitized diskettes. Fantastic! (This program will only run on the 130XE!)

■ 223 MOVIES #5

4 animated Movie Maker films with an autoplayer. You don't need to own Movie Maker to enjoy them. Includes the huge 4-part Toronto Atari Federation (TAF) demo featuring colorful animation effects, plus Cubes, Colorful Animated Shapes, and a Weird (but cute!) Little Guy.

■ 224 SWIMSUIT PHOTO ISSUE

Digitized images of a dozen beautiful girls! View ComputerEyes video pictures that have been further edited and enhanced with RAMbrandt. These superbly prepared pictures are presented in good taste.

■ 225 MULTI-MODE

The Multi-Mode Screen Utility lets you load picture files and then change/color, rotate colors, perform GTIA pixel averaging, view on 3 graphics screens, and even dump to a printer. Complete with 12 Microllustrator pictures to experiment with.

■ 226 THE GRAPHICS MACHINE

Some call it the ultimate graphics demo! The Graphics Machine features an animated graphics and music demo that runs for over 15 minutes and contains some of the best effects you have ever seen or heard.

■ 227 ATARI TV AD!

An Atari ad from Germany containing the actual digitized TV sound

track! (This program runs on 130XE models only!)

■ 228 MAX HEADROOM DEMO

Animated graphics demo featuring the popular Max Headroom character. Watch Max come alive!

■ 229 GARFIELD COMIC

"Odie's Revenge" is a humorous 8 panel cartoon featuring that favourite feline, Garfield. Colorful and well drawn.

■ 230 PICTURE PIRATE!

This unique program searches through any disk, even the commercial game disks, for a graphics picture (usually a title screen), and then saves it to another disk in Microllustrator (Koala) format. Included are sample screens taken from CHESS MASTER, GOONIES, HARDBALL, KARATE, KORONIS, RIFT, SILENT SERVICE, RAID OVER MOSCOW, SPY VS SPY, DAM BUSTER, plus 6 others.

■ 231 KOALA ART #4 [GERMAN]

Great collection of 24 KOALA art pictures drawn by German artists! These selected pictures are colorful and quite unique. Viewers for the 130XE and other Atari computer models are included.

■ 232 KOALA ART #5 [ROBO]

Collection of 22 beautifully drawn KOALA art pictures inspired by RoboTech The Movie! See all your favourite characters including Lynn, Becky, Lisa, Rick, Scott, Dana, Eve, and Zor Prime.

■ 233 DIGITIZED PHOTOS #3

Superb collection of 10 digitized photos featuring 6 scenes from Pee-wee's Playhouse, plus other subjects. Complete with a slide viewer program.

■ 234 DIGITIZED PHOTOS #4

Another great collection of 10 digitized photos featuring 4 scenes from Ghost Busters, plus other subjects. Complete with a slide viewer program.

■ 235 COMPUTER EYES DEMO

This is the ComputerEyes Demo Disk prepared by Digital Vision, Inc., describing their famous video image acquisition system. Sample digitized photos are displayed. Quite interesting!

DOUBLE-SIDED THEME DISKS

■ D-8 130XE HI-RES DESIGNER

R-DRAW 1.3 is a hi-res Gr.8 drawing program created only for the Atari 130XE! Loads of standard features, plus spray paint, auto-artifacting, 4 text sizes, L-R reverse (for T-shirt art), star fields, and more! It uses the standard 62 sector format and comes complete with instructions.

■ D-9 RAMbrandt GALLERY

With "RAMbrandt Gallery" you can create customized slide shows to show off your RAMbrandt pictures! Choose wipes, dissolves, telescope, spin, and other stunning display effects. Complete with sample pictures and a utility to permit use of the Atari Touch Tablet stylus with RAMbrandt.

■ D-40 TOUCH-EDIT II

■ 222 TOUCH-EDIT II DOCUMENTATION

Powerful character font and/or Player Missile Editor, Creator, and Animator package for use with joystick, paddles, mouse, or Atari Touch Tablet. Design custom fonts or P/M graphics and then convert your crea-

tions into your own BASIC programs. This program is fully featured and includes many ready-to-use fonts! Documentation is included on a single-sided disk. Shareware by Boyd Gafford. (2 disk set!)

■ D-41 PAPER PLANES

Wow! 8 paper airplane designs you can dump to an Epson compatible printer, then color, cut out, fold, and fly. Features semi-animated folding instructions. Also included is a drawing program to design your own paper planes.

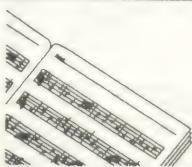

■ D-42 G-CHIP COOKBOOK

"Old Mother Hubbard's G-Chip Cookbook" contains recipes for creating computer art! Create and save stand-alone creations inspired by geometric

forms of nature and the mandalic art of the east. Complete with stunning samples.

■ D-43 RLE GRAPHICS

Heard of RLE graphics? Here's the collection of RLE utilities you've been waiting for! The RLE CONVERTER lets you convert between Microlustrator, MicroPainter, and RLE picture files. The HI-RES TO RLE CONVERTER lets you convert 62 sector pictures to RLE format. The RLE REPAIR PROGRAM "cleans up" RLE pictures, such as weather maps. Also included is an RLE PICTURE SHOW program in Action!, the OMNI!LOADER to load RLE pictures, and the RLE SLIDE SHOW to let you view or print RLE hi-res pictures. 10 RLE sample pictures are also included!

MUSIC & SOUND

■ 079 MUSIC COMPOSER HITS

SYN - Plays and edits tunes composed using the Atari Music Composer. (AMC cartridge not required). (ML)(DOC)

PLAY MBD - Plays converted Music Composer files using the extension "MBD". (BAS)

INCLUDED are over 40 ready to play AMC files: BEET, CANTINA, CHOPSTIX, COUNTRY, DAISY, DIXIE, DRINKSAIL, ENTERTN, GRNSLEEV, INMYLIFE, JOPLIN, JOHNNYMH, LETSBEG, MINIWALTZ, MOONRIVR, POMP2, PRELUDE, RISINGSN, ROWROW, SCARFAIR, SLOOPJB, SOMEWHR, STARTREK, STARWARS, TOSIR, WINDY, YELOWSUB, ZORBA, ABBEY, AMFUGA, BENNY, BLUESF, BOUREE, EASY, INVENTN8, JIM, JUDY, PARTITA, PICTURES, SOLACE, TIN, WORKWEEK. Plus 10 converted (MBD) AMC tunes: BACH, BEET, HOMEON, JOYTO, RYE, ENTERTNR, HOUSETOP, MARCH, SOLACE, WALTZ.

■ 082 MUSIC & VIDEOS

9 music videos written in BASIC, including HIGH SOCIETY, OCTOPUS, PINK PANTHER THEME, PUFF THE MAGIC DRAGON, MISSION IMPOSSIBLE THEME, SERGEANT PEPPER'S LONELY HEARTS CLUB BAND, Scott Joplin's PINEAPPLE RAG, and MAPLE LEAF RAG. Some feature colorful graphics and animation.

■ 083 ATARI SPEAKS!

3 great digitized sound recordings.

PEEWEE - Hear Pee-wee Herman sing "Connect the Dots..." in this great digitized sound and photo demo. (ML)

NACHRIC - Crystal clear digitized speech in German. (ML)

VANHALLEN - Brief digitized music demo. (ML)

■ 084 CHRISTMAS MUSIC

SNOOPY - Snoopy greeting card, featuring an animated snowfall. (ML)
ATARI TREE - Plays "Jingle Bells" and features a colorful Christmas tree. (BAS)

O HOLY NIGHT - Plays carol, with Bethlehem in the background. (BAS)
HALLELUJAH CHORUS - Displays an inspirational background. (BAS)

SILVER BELLS - A nice rendition. (BAS)

CAROLS - 6 beautiful Christmas Carols including Hark The Herald Angels Sing, God Rest Ye Merry Gentlemen, Away In A Manger, Deck The Halls, Joy To The World, and Angels From The Realms. (BAS)

12 DAYS - Compose your own version of the Twelve Days of Christmas. (BAS)

AMS JUKEBOX II - 10 Christmas Carols and tunes including O COME ALL YE FAITHFUL, FIRST NOEL, GOD REST YE MERRY GENTLEMEN, JOY TO THE WORLD, MIDNIGHT CLEAR, WHAT CHILD IS THIS, DECK THE HALLS, SILVER BELLS, WE WISH YOU, and JINGLE BELLS. (ML)

■ 165 AMS MUSIC [THE BEATLES]

10 AMS Beatles tunes with a special player, including I WANT TO HOLD YOUR HAND, ELEANOR RIGBY, IMAGINE, LOVE LOVE ME DO, LUCY IN THE SKY, NOWHERE MAN, SHE LOVES YOU, VIENNA, WOOD, SHAKE IT UP, and PAPERBACK.

■ 166 AMS MUSIC [JAZZ]

12 AMS jazz tunes with a special player, including SODA RAG, LUSH LIFE, IN THE MOOD, RHAPSODY, A TRAIN, FIFTH, USED TO BE, SOUTHERN, SATIN, TAKE FIVE, SUMMER, and RAMBLE.

■ 167 DIGITAL COUNTRY

Huge digitized music demo featuring almost an entire Hank Snow number (*At least I think it's him??*) Really clear sound. Great listening! (Runs on Atari 130XE model only.)

■ 168 DEMO DELIGHTS

DIZZY - Use the function keys to control a terrific spiralling tunnel effect. (ML)

ENCHANTED MUSIC BOX - Displays and plays 10 tunes, including Knights In White Satin, M*A*S*H, The Sabre Dance, High Noon, Yesterday, Hey Jude, Yellow Rose of Texas, Sunshine of Your Love, Loving Her Was Easier, and Because. Terrific sounds! (ML)

NOSE - Rotating wire-frame design. Great graphics! (ML)

WOOF WOOF - Press keys to hear dogs barking. Play a tune? (ML)

GIRL - "Girl, you really got me..." Digitized music. (ML)

DOWNTOWN - This stunning rendition of "Downtown" makes ST users jealous! (ML)

TECHPOP - Press keys to create rhythmic percussion effects. (ML)

■ 170 DIGITIZED MUSIC

The Music Digitizer Player plays 4 brief samples of digitized songs including THE MONKEYS, TRUE BLUE, GIRLS, JUMP. Not great, but may be interesting to some.

■ 171 JEAN ROWE MUSIC #1

5 animated music videos by Jean Rowe, including BLUE TANGO, NOTRE DAME VICTORY MARCH, EASTER PARADE, WHIPPED CREAM, and PASS ME BY.

■ 172 JEAN ROWE MUSIC #2

6 animated music videos by Jean Rowe, including 76 TROMBONES, NATIONAL EMBLEM MARCH,

BOOGIE WOOGIE MAN, FUGUE IN C, IT'S A GRAND OLD FLAG, and GREENSLEEVES.

■ 173 JEAN ROWE MUSIC #3

5 more great animated music videos by Jean Rowe, including TIP TOE THROUGH THE TULIPS, GILLIGAN'S ISLAND, PETER GUN, BIBIDI-BOBBIDI-BOO, and DIZZY FINGERS.

■ 174 AMS RELIGIOUS MUSIC

The animated Composer's Jukebox player with 25 great religious tunes including HOLY HOLY, RUGGED CROSS, AMAZING GRACE, IN THE GARDEN, HOLY, SWEET BY, SHEAVES, ROCK OF AGES, THE BIBLE, HOW GREAT, ABIDE, OLD TIME, DOMINIQUE, NEARER, SUNBEAM, PUT YOUR HAND, SOLDIERS, LEAD KINDLY, CHURCH, JESUS LOVES ME, DADDY SANG, TRAIN, ALMIGHTY, MIGHTY, and SEA.

■ 175 AMS SPECIAL #2

5 large AMS tunes featuring an animated player with song titles, including FRECKLES RAG, LITTLE GREEN APPLES, THE PEACH (RAG), A TUNE FOR US, and BAND ON THE RUN.

■ 176 AMS SPECIAL #3

10 great AMS tunes featuring an animated player with song titles, including AMERICAN PIE, MOONGLOW, HEART OF GLASS, I'VE GROWN ACCUSTOMED TO HER FACE, HELP ME MAKE IT THROUGH THE NIGHT, CARELESS, SMOOTHERS BROTHERS, CAGNEY & LACEY, ANNIES SONG, and GOMER PYLE.

■ 177 GERMANY'S BEST

From the genius of Willi Biber comes 12 outstanding musical programs from Germany, featuring FIRE CRACKER, THE SYNTH SONG, MUSIC SYNTHESIZER, OXYGEN PART II, STARLIGHT, IN THE MOOD, MAD BOOGIE, CAVE HUNT, HIGH NOON, RHAPSODY, SPANISH EYES, and the stunning AMORADA. Some of the best computer music demos available for the 8-bit. Makes ST users jealous!

PLUS: 6 graphics demos featuring the amazing Leidenschaftlich (German version of Passionately), the digitized image of an Atari ST, pulsating lines of rotating colors (press SPACE to change designs), beautiful moire effects, flowing colors, and a 1-liner 3-D demo.

■ 178 SOUND F-X & UTILITIES

DULCIMER - Dulcimer synthesizer. (BAS)

SOUNDS - Design custom sounds. (BAS)

SOUND LAB - Create sound F-X with a joystick. (BAS)

EFFECTS 1 - Collection of sound F-X in BASIC. (BAS)

EFFECTS 2 - More sound F-X in BASIC. (BAS)

SOUNDEMO - Sound F-X from Germany. (BAS)

SOUNDFX - Sound F-X with graphics.

(BAS)

FX - Thunder, locomotive, and heart beat. (BAS)

ORGAN - Simple organ simulator. (BAS)

MOZART - Computer generated Mozart. (BAS)

MUSIC MAKER - Create tunes using the keyboard and joystick. (BAS)

TOY ORGAN - Children's organ player. (BAS)

AMS PLAYER - The Music Machine AMS player from England. No graphics, but it plays AMS music a bit faster. Includes SOUNDS OF SILENCE. (ML)

BLUES - Computer generated Blues. (BAS)

FUGUE - Simulated Bach. (BAS)

■ 179 BASIC MUSIC

ANTHEMS - Our national anthem "O Canada", plus our royal anthem "God Save The Queen", with lyrics. (BAS)

DIXIE - "A Dixie Melody", with lyrics. (BAS)

SNOWBIRD - Ann Murray's "Snowbird", with lyrics. (BAS)

DO RAY ME - Tune from the "Sound of Music". (BAS)

SILENT - Beautiful version of "Silent Night". (BAS)

PUFF - "Puff The Magic Dragon" tune. (BAS)

PINETOP - The "Pinetop Boogie Woogie". (BAS)

BACH - A Bach fugue. (BAS)

AT HOME - Displays an animated fireplace and plays "God Rest Ye Merry Gentlemen". Nice for Christmas. (BAS)

CAROLS - Plays 3 Christmas tunes and displays Seasonal background pictures. (BAS)

HACKER - The Hacker's Rap! (BAS)

■ 180 AMP MUSIC DEMOS

The creators of "Passionately" bring you 6+ outstanding musical scores created with the Advanced Music Processor: ALTERNATE REALITY, COSMIC, AIR STRIKE, MONSTER MASH, MR. ROBOT, and the English and German versions of PASSIONATELY. An article on the music's history is included.

■ 181 POKEY PLAYER II

POKEY PLAYER II enables you to compose music with 3 independent voices and percussion effects. The music can even be used to enhance your own BASIC programs. Plus, over 30 sample tunes with a player are included! Please note: copyrighted articles from back issues of Softside magazine (#34, #35, and #38) may be required to fully utilize this utility.

■ 182 POKEY TUNES

A collection of nearly 50 popular tunes created using POKEY PLAYER II with an auto player to play them. POKEY PLAYER II is NOT required to enjoy these tunes.

■ 183 BEETHOVEN SONATA

Beethoven Sonata Opus 2 No.3. Movements 1, 2, 3, and 4, programmed by Bob DuHamel using the Atari Music Composer. The AMC

cartridge is not required to appreciate this great music, as a modified auto player is included. Sit back and enjoy!

■ 184 BACH

Bach Fugue in G, plus Preludes & Fugues 1-7, programmed by Bob DuHamel using the Atari Music Composer. The AMC cartridge is not required to appreciate this great music, as a modified auto player is included. The AMC has never sounded better!

■ 185 AMS MUSIC SPECIAL #1

11 great AMS tunes featuring an animated player with song titles, including A FIFTH OF BEETHOVEN, NEW YORK, THE STRIPPER, MUSIC BOX DANCER, CARAVAN, NEWHART, PINK PANTHER, TAKE FIVE, CHARIOTS OF FIRE, RAUNCHY GUITAR, and TYPEWRITER.

■ 193 AMS SPECIAL #4

11 great AMS tunes featuring an animated player with song titles, including TOOTSIE, ICE CASTLES, CLOSE ENCOUNTERS OF THE 3rd KIND, LOVE IS A MANY SPLENDORED THING, ALMOST PARADISE, TERMS OF ENDEARMENT, GHOSTBUSTERS, BLUE MOON, AGAINST ALL ODDS, WIZARD OF OZ, and UP WHERE WE BELONG.

■ 194 AMS SPECIAL #5

9 more AMS tunes featuring an animated player with song titles, including MUSKRAT RAMBLE, WHO'S IN THE STRAWBERRY PATCH, WANG WANG BLUES, THE WALTONS, STAR TREK, WINDS OF WAR, A-TEAM, EASY LOVER, and A SWELL AFFAIR.

■ 198 AMS CHRISTMAS MUSIC

The animated Composer's Jukebox player with 20 great holiday tunes including CHRISTMAS TREE, HAVE YOURSELF, SANTA, HOME FOR, WE WISH YOU, IT'S BEGINNING, JOLLY OLD, WINTER WONDERLAND, WHITE CHRISTMAS, SANTA, CHESTNUTS, JINGLE BELLS, SILVER BELLS, SILENT, OPEN SLEIGH, RUDOLPH, HOLIDAYS, 12 DAYS, LET IT SNOW, and DECK THE HALLS.

■ 202 AMS CHRISTMAS CAROLS

The animated Composer's Jukebox player with 24 beautiful carols including SILENT, I HEARD, JOY TO, WHAT CHILD, COVENTRY, MERRY GENTLEMEN, HOSETOPS, HEAR BELLS, MANGER HARK THE WE 3 KINGS, JOSEPH, FAITHFUL, A CAROLING, CAROL, SILENT, O COME, ANGELS, FIRST NOEL, BETHLEHEM, HOLY NIGHT, MIDNIGHT, CHILD IS BORN, and THE BELLS.

NOTE: There are many more AMS tunes in various P.D. libraries. We believe the ones in our library are some of the best available. Although interesting and somewhat entertaining, they will never replace your Stereo!

EDUCATIONAL

■ 077 MATHPAD 1.0

BASIC programs for data analysis by M. K. O'Neill. Perform statistical analysis, least squares fits, linear regression, and functional analysis on a user-defined polynomial. Also solve simultaneous linear equations. Plots to screen and printer.

■ 085 C.U.E. SOFTSWAP #1

BAGELS - Mastermind-type numbers game. (BAS)(1 Plyr/KB)

TRAP - Guess a number between 1 and 100. (BAS)(1 Plyr/KB)

GEOGRAPHY QUIZ - Guess names of nations, capitals, Canadian and U.S. places. (BAS)(1 Plyr/KB)

ROMANS - Practice using Roman numerals. (BAS)(2 Plyr/KB)

MULTIPLICATION BINGO - Multiplication practice game. (BAS)(1 Plyr/KB)

SCRAMBLED WORDS - Unscramble letters to spell words. (BAS)(1 Plyr/KB)

SINE WAVE - Draws hi-res graph of a given sine wave. (BAS)(1 Plyr/KB)

HANGMAN - Hangman spelling drill. (BAS)(1 Plyr/KB)

BOURREAU - Hangman en français. (BAS)(1 Plyr/KB)

FAN-ROSE - Graphically view "R-SIN(N°Theta)". (BAS)

NAME THE STATES - U.S. states memory quiz. (BAS)(1 Plyr/KB)

MATH QUIZ - Whole number math drill in 4 functions. (BAS)(1 Plyr/KB)

STATES & CAPITOLS - Match U.S. states and capitals. (BAS)(1 Plyr/KB)

■ 086 C.U.E. SOFTSWAP #2

VOLCANO - Can you survive Mount St. Helens? Includes a good graphic tutorial on volcanic action. (BAS)(1 Plyr/KB)

HAIKU - Atari creates Haiku poetry. (BAS)(1 Plyr/KB)

MAGIC SQUARE PUZZLE - Slide the numbers into sequential order or create a specified matrix. (BAS)(1 Plyr/JS)

OREGON - Join an 1847 pioneer wagon train. (BAS)(1 Plyr/KB)

■ 087 C.U.E. SOFTSWAP #3

PAKJANA - Control the dancing figure using a simple animation language. Develops programming skills. (BAS)(1 Plyr/KB)

A-BOXES - Guess the attributes of 2 boxes. (BAS)(1 Plyr/KB)

FRACTION - Use visual clues on a number line to guess the hidden fraction. (BAS)(1 Plyr/KB)

CINQUAIN - Write a 5 line cinquain poem. (BAS)(1 Plyr/KB)

■ 088 C.U.E. SOFTSWAP #4

HURKLE - Locate the Hurkle in the grid. Teaches mapping coordinates.

(BAS)(1 Plyr/KB)

KALAH - Capture markers in a computerized version of the ancient board game. (BAS)(1 Plyr/KB)

MEAN - Familiarizes students with one kind of statistical distribution. (BAS)(Demo or 1-2 Plyr/KB)

SNARK - Draw circles on a grid to trap Snark. Teaches X-Y coordinates. (BAS)(1 Plyr/KB)

■ 089 ASTRONOMY

A compendium of programs for amateur astronomers of all ages.

HALLEY - Locates Comet Halley from 1946-2026. (BAS)

ASTRONOMY - This detailed observational astronomy reference locates solar objects, plus over 100 deep sky objects. (BAS)

HORIZON - Coordinate calculator for astronomers/astro-photographers. Find azimuth/altitude of any object at any time. Aids in positioning a camera or scope. (BAS)(DOC)

STAR ENCOUNTER - Will Earth ever collide with a star?(!) Calculate star courses. (BAS)(DOC)

ASTRONOMY II - Calculate astronomical times. (BAS)

SOLAR SYSTEM - Plot planetary movements through the constellations from any Earth location, at any time, on screen. (BAS)

PLANETARIUM - Simple beginner's planetarium. (BAS)

STAR GAZER - This astronomy quiz and/or planetarium plots 12 major winter constellations in colorful graphics. (BAS)

MAROONED - Use information from ship's sensors to identify the planet you're orbiting. (BAS)(1 Plyr/KB)

■ 090 MATHEMATICS #1

ADDING - Random adding practice. (BAS)(1 Plyr/KB)

MATH WARS - Addition practice with a Star Wars theme. (BAS)(1 Plyr/KB)

FUNCTION MACHINE - The Function Machine with 4 play options, animation, and sound. (BAS)(1 Plyr/KB)

TIMES TABLE - 2-9 times multiplication tutor. (BAS)

MATH TUTOR - Choose Arithmathricks (4 function), or Fraction-Action (fraction to decimal or lowest denominator). (BAS)

MATH ROUTINES - For permutations and combinations, simultaneous equations, quadratic roots, linear interpolation, prime factors, etc. (BAS)

POLAR GRAPHING - Plot polar functions in hi-res including spiral, cardioid, polygon, etc. (BAS)

ROMAN CLOCK - Roman numeral

digital clock? (BAS)

BIG NUMBERS - Learn how to say any big number, even up to a googolplex! (BAS)

MATH QUIZ - Shoot down the correct answers. Tests 4 functions in 5 levels. (BAS)(1 Plyr/JS)

FUNCTIONS - Guess the correct math rule used. (BAS)(1 Plyr/KB)

■ 091 TUTORIALS #1

COMPUTER - Animated tutorial on the operation of Atari's CPU. (BAS)

AAC1 & AAC2 - Assembly language programming tutorial. (BAS)

KEYBOARD - Tutorial on the uses of BASIC I/O keyboard commands. (BAS)

TYPING - Alphabet typing drill. (BAS)

TYPO TIME - An arcade-type typing drill. (BAS)(1 Plyr/KB)

WORD ADVENTURE - Search dungeons for the keys to letters, then recreate the word. (BAS)(1 Plyr/JS)

FRENCH/ENGLISH - *Et bien!* Practice reading/writing in either French or English. (BAS)

■ 092 QUIZ & REVIEW #1

CANADA - Excellent Canadian geography quiz featuring a colorful hi-res atlas of Canada. (BAS)

EUROPE - Excellent European geography quiz featuring a colorful hi-res atlas of Europe. (BAS)

FLAGS - Flags of every nation are colorfully displayed in this quiz. (BAS)

FIRST AID QUIZ - Quiz based on the "Red Cross Advanced 1st Aid & Emergency Care" text. (BAS)

QUIZ - Huge 1-2 player quiz with over 400 timed exam-type questions on world capitals, inventors, abbreviations, and vocabulary. (BAS)

CHEMISTRY - Chemistry drills covering radicals, elements, oxidation states, and solubility rule numbers. (BAS)

VOCABULARY - Tests knowledge of word meanings. (BAS)

CAPITALS - Geography quiz on capitals, countries, Canadian provinces and U.S. states. (BAS)

■ 139 WORLD-BASE

An educational database featuring the countries of the world. Research and/or test knowledge of country names, capitals, areas, populations. Printer supported.

■ 140 ANIMAL-BASE

An educational database featuring facts about animals. Research and/or test knowledge of animal male/female names, young, group, gestation. Printer supported.

■ 141 SOLAR-BASE

An educational database featuring facts about the solar system. Research and/or test knowledge on complete planetary data. Printer supported.

■ 143 CONTINENTAL-BASE

An educational database featuring facts about world geography. Research and/or test knowledge on the continents, geographical features, and oceans. Printer supported.

■ 144 THE DRILL INSTRUCTOR

Spelling and vocabulary builder similar to Spelling Genie, but better. This quality program tests spelling and word usage in a guessing game format. An Editor allows you to create your own word lists with a security access.

■ 145 PILOT #1

Children's educational disk containing an assortment of PILOT programs for study and fun. (Requires the Atari PILOT cartridge.)

■ 146 PILOT #2

Children's educational disk containing additional PILOT programs for study and fun. (Requires the Atari PILOT cartridge.)

■ 150 TURBO MATH

Useful collection of math tutorials written in Turbo Basic, designed to aid math students from basic algebra up through the natural sciences. Includes factorials, equations, synthetic division, calculus, and chemistry. (For Atari XL/XE models only.)

■ 151 C.U.E. SOFTSWAP #5

WORD HUNT - Prints out a nice "Word Search" puzzle using words of your choice. (BAS)

MORE/LESS - Teaches number relationships using integers, mixed, decimals, etc. (BAS)(1 Plyr/KB)

DAIRY FARM - Manage a profitable dairy herd. (BAS)(1 Plyr/KB)

MASTER MIND - Classic game of Mastermind. (BAS)(1 Plyr/KB)

CONCENTRATION - Match 2 cards to win. (BAS)(2 Plyr/JS)

FUGUE - Plays a fugue. (BAS)

STATES - Guess the state or capitol on a map of USA. (BAS)(1 Plyr/JS)

■ 152 C.U.E. SOFTSWAP #6

CHEMISTRY DRILL - Review the element names/symbols, radical names/symbols, oxidation states. Displays symbols. (BAS)

EQUILIBRIUM LAB - Chemical equilibrium lab aid. (BAS)

BOYLES LAW - Demonstrate Boyles Law using your own inputs, and print results. (BAS)

STP - Convert volume of gas at room conditions to equivalent volume at S.T.P. (BAS)

MOLE - Mole concept tutorial. (BAS)

HABER - Simulates the production of ammonia using the Haber process. (BAS)

SIGFIG - Timed quiz on significant figures. (BAS)

CALORIES - Identify unknown chemicals from their temp-time data and

heating rate. (BAS)

LINE GRAPH - An example of equation/point plotting. (BAS)

TRIG PLOT - Plot a polar rose, daisy, or cardioid. (BAS)

POLY PLOT - Plot a specified polynomial equation. (BAS)

■ 153 LOGO DEMOS & UTILITIES

A collection of utility and demo programs for use with your Atari LOGO cartridge. Includes several utilities to print out LOGO screens (Epson compatible), plus demos of various LOGO procedures. (Requires Atari LOGO cartridge.)

■ 154 MICRO TALES #1

 Charlie Parker's "The Noisy Giant" is a professional quality story book for kids aged 2-9 years. This delightful interactive story disk features keyboard control of over 1 dozen animated pictures. Excellent for young readers!

■ 155 MICRO TALES #2

"Cave Man Joe", by Charlie Parker, is a professional quality story book for kids aged 2-9 years. This delightful interactive story disk features easy keyboard control of nearly 20 color pictures, many of which are animated. Kids love it!

■ 156 MATH by J. R. Kelley

ALGEBRA DRILL - Excellent basic algebra drills. (BAS)(1 Plyr/KB)

ALGEBRA 1 - Reviews the distributive axiom of multiplication. (BAS)(1 Plyr/KB)

ALGEBRA 2 - Exercises to extract binomial roots of simple polynomials. (BAS)(1 Plyr/KB)

AREA & VOLUME - Compiles areas and volumes. (BAS)(1 Plyr/KB)

DICE MATH - Young learners solve addition, subtraction, and multiplication problems using 2 dice. (BAS)(1 Plyr/KB)

DOMINOS 1 - (Pl1) Solve addition, subtraction, and multiplication problems using 6 double dominos (6-9 years). (BAS)(1 Plyr/KB)

DOMINOS 2 - (Pl2) As above, but using 9 double dominos (6-9 years). (BAS)(1 Plyr/KB)

DOMINOS 3 - (Pl3) As above, but using 12 double dominos (6-9 years). (BAS)(1 Plyr/KB)

FLASHO - Multiplication flash card game. (BAS)(1 Plyr/JS)

YAT-C II - The YAT-C game of chance teaches addition and number recognition. (BAS)(2 Plyr/KB)

■ 157 MATHEMATICS #2

AREAS - Tests on areas of many geometric shapes and gives problem breakdown. (BAS)(1 Plyr/KB)

CRICKET - In this British game, you score runs by answering 4-function

math problems. (BAS)(1 Plyr/KB)

ESTIMATION - Estimate area, values, length, quantity, points on graph, etc. (BAS)(1 Plyr/KB)

EXPAND - Review number expansion and place values. (BAS)(1 Plyr/KB)

FACTS - Timed 4 function math quiz (BAS)(1 Plyr/JS)

FRACTION - Good practice in multiplication of fractions, with mini tutorial. (BAS)(1 Plyr/KB)

MAGIC BIRD - Good multiplication practice game. (BAS)(1 Plyr/KB)

MISSILE MATH - 4 function math arcade game. (BAS)(1 Plyr/JS)

REVERSE - This game teaches number relationships. (BAS)(1 Plyr/JS)

■ 158 WORD REVIEWS

READ FLASH - Drill to increase reading speed. (BAS)(1 Plyr/KB)

SPELL FLASH - 300 word spelling and word recognition review. (BAS)(1 Plyr/KB)

WORD TROUBLE - Good review of words that sound the same but mean differently. (BAS)(1 Plyr/KB)

A-TRAIN - Learn alphabet by loading letters from a train onto a truck. (BAS)(1 Plyr/JS)

FORK LIFT - Use the animated forklift to sort words according to sound. (BAS)(1 Plyr/JS)

HANGMAN - Unique version with over 300 words. (BAS)(1 Plyr/KB)

UNSCRAMBLE I - Restore scrambled words to order. (BAS)(1 Plyr/KB)

UNSCRAMBLE II - Restore 300 new scrambled words to order. (BAS)(1 Plyr/KB)

STAR BIRD - Press correct key to fire rockets in this typing trainer game. (BAS)(1 Plyr/KB)

MADLIBS - Supply words to create funny stories. (BAS)(1 Plyr/KB)

■ 159 LEARNING AIDS #1

TEACHER'S GRADE BOOK - Records and summarizes student grades and assignments on a handy printout. (BAS)

TEACHER'S AID - Useful program package to establish class lists and enter term marks for 3 terms. Print out or graph student and/or class reports, and more. (BAS)(DOC)

CANADA - National anthem "O Canada", plus our royal anthem "God Save The Queen", with lyrics. (BAS)

WEATHER - Forecast daily weather reports. (BAS)

CALENDAR - Print calendars with pictures, using any Micrrollustrator (Koala) files and your Epson compatible printer. (BAS)(DOC)

■ 160 QUIZ & REVIEW #2

COMPUTER DICTIONARY - Informative interactive tutorial and dictionary of computer terms. (BAS)

COMPUTER HISTORY - Interesting interactive tutorial on The History of Computers. (BAS)

CHANGE - Teaches 1st graders how to count money. (BAS)(1 Plyr/KB)

COUNTING - Counting practice by 1's, 2's, etc. (BAS)(1 Plyr/KB)

KEY PANIC - Letter/number recogni-

tion game. (BAS)(1 Plyr/KB)

GEO-CENTER - Name the U.S. state, given the city nearest the geographic center. (BAS)(1 Plyr/KB)

WORLD CAPITOLS - Quiz on world capitals. (BAS)(1 Plyr/KB)

THE SUN - Complete tutorial on the Sun. (BAS)

SCRIPTURE - Tests on general Biblical knowledge. (BAS)(1 Plyr/KB)

THOUGHT MACHINE - Guess the correct historical time frame from the clues given. (BAS)(1 Plyr/KB)

■ 161 READING FUN

STORY TELLER - This large program package helps to develop children's reading skills by displaying the text of 10 complete fairy tales in 3 reading speeds. Entertaining too! (BAS)

SPEED READING - Speed reading trainer. (BAS)

READER - Reading comprehension drill using short stories. (BAS)

BIBLE ABC's - Learn ABC's using Bible verses. (BAS)

■ 162 WORD BUILDER

Great educational game by Joe Waters to help develop word power. Choosing from 9 different subject dictionaries, you must identify as many words as you can in a fixed time limit. An update feature allows you to create a custom dictionary of your choice. (1 Plyr/KB)

■ 163 LEARNING AIDS #2

TEACHER'S WORKSHOP - This pro-

gram package maintains grade records on up to 40 students. (BAS) MCVQ - Multiple choice vocabulary quiz. Enter up to 400 words and definitions. (BAS)(1 Plyr/JS)

CAICS - The Computer Aided Construction Set designs excellent quizzes for class or home use. (BAS)(DOC)

NAME PICKER - This utility randomly picks student names. (BAS)

EVALUATE - Typing evaluator to improve skills and measure rate. (BAS)

FLEXIBLE FINGERS - Typing trainer using random sentences. (BAS)

■ 164 QUIZ & REVIEW #3

CELL 1.4 - Interactive tutorial and quiz on cell parts. Good graphics! (BAS)

WORD HUNT - Create and solve word puzzles. (BAS)(1 Plyr/KB)

PRE-MATH - Pre-school math featuring color graphics. (BAS)

NUMBER CATCH - Catch the correct answers or numbers. (BAS)(1 Plyr/JS)

CHEMISTRY - View element properties. (BAS)

NOTE PRACTICE - Practice musical notes. (BAS)

THE SPANISH STUDY GUIDE - Provides Spanish word drills. (BAS)

HIKER - Answer math questions correctly, or the hiker falls. (BAS)(1 Plyr/KB)

ANIMAL - Can Atari guess the animal?? (BAS)(1 Plyr/KB)

DOUBLE-SIDED

THEME DISKS

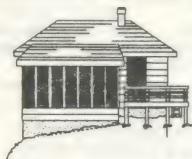

■ D-38 TEACHER'S TOOLBOX 3.0

Written by teacher Ron Fetzer for teachers. Teacher's Toolbox is a powerful Infobase to maintain ALL student records. Use your Epson compatible printer to print attendance cards, grade records, and student/parent information. Also featured are letter-to-parent reports, address labels, and mail-merge. Complete documentation.

■ D-39 STORY BOOK

Write and illustrate a short story (or tutorial) as a series of graphics screens which will be saved to disk. Create colorful stand-alone "Story Book" disks for your children, friends, or students. Side two features the complete tale of Snow White and The Seven Dwarfs to illustrate the program's full potential.

Many other fine programs could also be considered as being 'EDUCATIONAL'. Be sure to examine programs in the other sections of the BELLCOM catalog with the thought of using them as educational aids.

HOME & BUSINESS

■ 043 CHURCH TREASURER'S REPORT

John Goss, of Canada, has created a complete monthly financial report system for churches! A handy 1 page monthly report can be produced to provide information on offerings, disbursements, bank transactions, and monthly/year-to-date data.

■ 068 TURBOBASE 1.1

Quality random access database that holds over 770 records! Fast and full featured, with wild card search and printer options. TurboBase is written in Compiled Turbo Basic. (Runs only on XL/XE models!)

■ 069 SIGN MAKER

Enter the world of DTP! Print quality signs, posters, and flyers on your Epson or Star compatible printer. Uses different fonts, font sizes, and even Print Shop icons. Written in Compiled Turbo Basic. Shareware by Jeff Colehour. (Runs only on XL/XE models!)

■ 071 HOME SECURITY SYSTEM

Put your Atari to work! Protect your house with a computer controlled alarm system. This ingenious package contains all instructions, schematics, programs, and an inexpensive Radio Shack parts list.

■ 072 BILLBOARD

Print MicroPainter, P.D. Paint, ComputerEyes, or any other 62 sector pictures upright or sideways to almost ANY size, from wallet to billboard! Fully featured, with choices of shading effects. Can even be used with DaisyDot II to add pictures with text for Desktop Publishing. Use with any Epson compatible printer. Shareware by Chris Wareham.

■ 073 HOME & OFFICE #1

ACCOUNTS RECEIVABLE - Balance forwarding accounts receivable program that outputs to disk and/or printer. (BAS)

ACCOUNTS PAYABLE - Balance forwarding accounts payable program that outputs to disk and/or

printer. (BAS)

INVOICE - Customer invoicing program with transaction report. Prints up to 50 invoices. (BAS)

PAYROLL - Generate payroll reports for up to 25 employees. (BAS)

■ 074 INVESTMENT AIDS

MORTGAGE - Calculate mortgage amortization tables. (BAS)

MTGTABLE - Mortgage amortization table. (BAS)

SHARPE - Sharpe's method of stock portfolio selection. (BAS)

PORTVAL9 - Simple stock portfolio and profit analysis. (BAS)

INSFILE - Insurance portfolio data bank for home or business. (BAS)

ANNUDEF - Calculate present value of a deferred annuity. (BAS)

BONDVAL2 - Calculate bond value with variable interest. (BAS)

EFFECT - Calculate effective interest rate on a loan. (BAS)

LOANPAY - Calculate loan debt payment. (BAS)

MULTMON - Money multiplier computations. (BAS)

REGWITH - Calculate amount of required withdrawal from an investment. (BAS)

RRCONST - Calculate rate of return of investment with constant inflow. (BAS)

RRVARIN - Calculate rate of return of investment with variable inflow. (BAS)

LOANAFFD - Calculate amount of loan home buyer can afford. (BAS)

PAYNET - Calculate gross pay needed to earn a given net. (BAS)

AIROLOAN - Calculate annual interest rate on any loan. (BAS)

DISPAPER - Discount commercial papers. (BAS)

EITABLE - Calculate an earned interest table. (BAS)

EIRONINV - Calculate effective interest rates on investments. (BAS)

FVOFRD - Compute future values of regular deposits. (BAS)

FVOFINV - Compute future value of investments. (BAS)

ININVEST - Calculate initial investment for sinking funds. (BAS)

LPOALOAN - Calculate last payment on a loan. (BAS)

MININVFW - Calculate minimum investment required for regular withdrawals. (BAS)

NIRONINV - Calculate depreciation rates. (BAS)

RBOALOAN - Calculate remaining balance on a loan. (BAS)

REGINV - Calculate deposits for an amount to be received. (BAS)

REGDEP - Calculate amount to deposit to receive "x" dollars. (BAS)

RPOALOAN - Calculate regular payments on a loan. (BAS)

RWFAL - Calculate regular withdrawals from an investment. (BAS)

SINKFUND - Compute sinking fund payments. (BAS)

■ 075 HOME & OFFICE #2

ASSIGNMENT - Does a job assignment cost analysis. (BAS)

AUTO EXPENSE - Keep an auto expense record file. (BAS)

AUTO LEASE - Does an auto lease analysis. (BAS)

SIMPLE DISCOUNT - Does a price discount analysis. (BAS)

STOCK VALUE - Calculate value of a share of stock. (BAS)

ARBCOMP - Performs arbitrage computations (evaluates the value of a package of different securities). (BAS)

ANNUTY 1 - Does an annuity analysis. (BAS)

DEPRSL - Calculates a depreciation schedule (straight line method). (BAS)

DEPRDB - Calculates a depreciation schedule (declining balance method). (BAS)

DEPRDDB - Calculates a depreciation schedule (double declining balance method). (BAS)

TIMETR - Compute a linear trend for a time series. (BAS)

DEPAMNT - Calculate depreciation amounts. (BAS)

DEPLETE - Depletion analysis to determine depreciation charges.

(BAS)

DEPRECIATION - Calculate depreciation rates. (BAS)

ANGLO TO METRIC - 17 different angle to metric conversions. (BAS)

BTWN2DTS - Calculate the days between two dates. (BAS)

DAY OF WEEK - Determine the day of any week. (BAS)

SALVAGE VALUE - Calculate salvage values. (BAS)

VARIANCE - One way analysis of variance. (BAS)

ADDRESS - Personal address book. (BAS)

DISCBL - Calculate true interest rate on a discounted loan. (BAS)

■ 076 HOME & OFFICE #3

LIFE INSURANCE - Helps to estimate your life insurance needs. Equips you to see your agent. (BAS)(DOC)

TAXDEP - Does a depreciation and income tax analysis. (BAS)

TIME USE - Does a time use analysis. (BAS)

SEASIND - Compute seasonal sales indices for a time series. (BAS)

QUEUE 1 - Does a waiting line analysis. (BAS)

MARKUP - Does a product markup analysis. (BAS)

BREAK EVEN - Does a product break even analysis. (BAS)

DATEVAL - Compares dated values for obligations. (BAS)

DILANAL - Does dilution analysis of merging companies. (BAS)

FQEOPB - Inventory theory. Fixed quantity EOQ with quantity price breaks. (BAS)

FQEOWSH - Inventory theory. Fixed quantity EOQ with shortages. (BAS)

FQEQQ - Inventory theory. Fixed quantity EOQ. (BAS)

PROFIND - Calculate profitability index of a product. (BAS)

PRINDLAS - Laspeyres Price Index. Compare past prices to current. (BAS)

SELLING PRICE - Compute proper selling price of an item for sales tax included amount. (BAS)

SIMPLEX - Linear programming. Helps make optimum use of competing resources. (BAS)

SORT3 - Perform a shell sort. (BAS)

TERMSPAY - Compares methods of paying for purchases. (BAS)

TIME CLOCK - Calculate employee hours from time clock info. (BAS)

TRANSPORT - Solves transportation problems. (BAS)

VALADINF - Computes value of an additional sample information. Gives bounds of uncertainty. (BAS)

WARVAL - Computes value of a warrant. (BAS)

WACC - Calculate the weighted average cost of capital. (BAS)

WORLD TIME - Displays world time clock for 9 time centers. (BAS)

RULE 78 - Compute interest via rule of 78's. (BAS)

■ 078 HOME & OFFICE #4

SMART SHEET - Spreadsheet calcu-

lator for doing financial forecasting, budgeting, etc. Large VisiCalc-like work sheet divided into cells 15 rows across and 40 rows down. Menu driven with instructions. (BAS)(DOC)

ADBASE - Nice menu driven SyntFile-like database for keeping your records. (ML)(DOC)

PERSONAL BOOKKEEPER - Full featured Personal Bookkeeper to maintain the family budget and provide a comparative analysis of expenditures. Records up to 525 checks. (BAS)(DOC)

CHECK PRINTER - Prints check and stub on preprinted checks. (BAS)

■ 080 DOT-MAGIC

Dot-Magic is a variation of Daisy"Dot II written in Compiled Turbo Basic. Create excellent professional quality NLQ printouts and do Desktop Publishing with your 9-pin Epson compatible printer! Underline, print double-width, center text, and change spacing and density on the fly. Include MicroPainter and/or Micrillustrator picture files right in your text. Print beautifully formatted address labels. You can even use your printer as a correctable typewriter. (Runs only on XL/XE models!)

■ 104 PRINT SHOP CUSTOMIZER

PRINT SHOP MAGIC - Allows access to P.S. text and graphic files. Will convert P.S. files to 62 sector picture files which may be viewed and modified using MicroPainter or Micrillustrator (Koala). NOTE: This program is in ACTION! source code and requires the ACTION! cartridge to run. (Perhaps someone could make it autorun for us?). (DOC)

SHOP TOOL - Slide viewer for P.S. icons. Also converts P.S. graphics to Atari format files which can be swapped or viewed with friends, or transferred by modem. (ML)

P.S. DIRECTORY - Prints a directory for your P.S. saved graphics on an Epson or Star compatible. (BAS)(DOC)

PLUS... 24 great Print Shop icons included.

■ 105 MINI WORD PROCESSORS

TINYTEXT 1 - The original little TinyText 40 column text editor/word processor. Can merge text and ASCII program files, justify text, etc. Use any printer. (BAS)(DOC)

TINYTEXT 2 - TinyText v.2, is better than ever! All the features of the original, plus page numbering, headings, TinyDOS, and more. Allows 80 column text to screen or any printer. Read 80 columns on your TV without hardware modification! Originally designed for producing a club newsletter. (BAS)(DOC)(Translator is required with XL/XE models.)

MICROTEXT - Simple word processor featuring save, load, edit, review, and print commands. Has word wrap around and a clear screen display. (BAS)

MATT*EDIT - This unique 40 column text/graphics editor prints Atari

Ctl character graphics along with text in a 1, 2, or 3 column newsletter format. For Epson or Star compatible printers. (BAS)

MAILWIZ - Converts Atari Mail List files into Letter Wizard files. (BAS)

CONTEXT - Converts Letter Perfect files for use on any word processor. (BAS)(DOC)

■ 106 HOME BUDGET

BANK - Powerful home budget program package to keep track of several bank (or bank terminal) accounts. Handles upcoming checks, unpaid bills, savings, etc., and provides printed reports. (BAS)(DOC)

HOME BUDGET MANAGER - Features monthly/yearly reports and bar graphs. (BAS)

CHECK BOOK - Balances your checkbook. (BAS)

FINANCE - Detailed Home Financial Manager with over 200 entries possible. (BAS)

PLANNER - Handy personal planning calendar. (BAS)

■ 107 FINANCIAL

COMPUTE - Loan analyzer that calculates rate, payment, # of payments, or amount. (BAS)

FVINV - Calculate future investment value. (BAS)

IRA - IRA earnings projection for the U.S. tax system. (BAS)

LOANPAY - Calculate amount of loan payments. (BAS)

NPV - Calculate net PV of investments. (BAS)

PVPERIOD - Calculate PV of an amount per period invested for any number of years. (BAS)

SINKFUND - Calculate the sinking fund factor for an amount to be received at the end. (BAS)

TAXES v3 - U.S. tax preparation utility to itemize deductions and income. (Could be modified for Canadian tax system.) (BAS)

BANK BALANCE - Balance your bank statement. (BAS)

CHECK PRINTER - Print checks and record checks issued. (BAS)

BAR GRAPH - Create simple bar graphs. (BAS)

PRATIO - Prints a Financial Statement Ratio Analysis for a small business. (BAS)

DISK CATALOG - Disk inventory, featuring search and easy updating. (BAS)(DOC)

BUSINESS - Compendium of utilities to calculate monthly mortgage payments, depreciation schedules, savings and loans, paycheck amounts, checkbook balances, US/METRIC conversions, mortgage comparisons, and itemization of property expenses. (BAS)

■ 108 DATABASES

DATABASE II FILE MANAGER - Versatile, with custom report formats to screen or printer. Search features wild card [*] options, and up to 8 criteria. (BAS)(DOC)

ATARI FILE v3.1 - Small general purpose database from MACE. (BAS)

VIDEO FILE - Catalog from 1-99

video or audio tapes. (BAS)(DOC)

DIF CONVERT - Convert File Manager files and other DOS-type files to "DIF" files for use with SynFile+. (BAS)(DOC)

DISK INDEX v8.1 - Scans and/or sorts programs by disk number, EXT, program name, or type. (BAS)

PROGRAM LIBRARY - Simple disk library database. (BAS)

■ 109 DISK & PROGRAM INDEXES

Keep track of your programs

DISK LIST - Catalog 1-255 disks. Has search and view, and label printing features, etc. Configures to almost any printer. (BAS)

FILEINDEX v2.8 - Eugene ACE's FileIndex scans or sorts by disk number, EXT, program, or type. Dumps to screen or printer. Includes sample file. (BAS)(DOC)

INDEX 3 - This powerful disk/program index from the Yukon will scan or sort up to 1,100 records, and it's fast! Has wild card options, and dumps to screen or any printer. Complete with instructions. (BAS)(DOC)

■ 110 HOME UTILITIES #1

WEATHER - Forecast local weather. (BAS)

HURRICANE - Calculate hurricane location and arrival time. (BAS)

CALENDAR - Generate calendars for any month of any year since 1583! (BAS)

DAYSDATE - Calculate number of days between 2 dates, day of week or any date, or obtain a calendar of any year. (BAS)

BIORHYTHM - Plots personal biorhythm chart to screen or any printer. (BAS)

STRESS - Measure your stress level. (BAS)

SHAVA - Learn relaxation breathing. (BAS)

RELAX - 3 part relaxation trainer. (BAS)

ELECTRIC - Analyse home electrical costs and consumption. (BAS)

LOTTERY - Select or check numbers for Ontario's Lottario or Lotto 649. Could be modified for other lotteries. (BAS)

■ 132 CAR HELP

Unique database of records and expenses for your car! This package also provides helpful information on fuel economy and features informative tutorials covering maintenance, ignition, cooling system, brakes, tires, suspension, fuel system, and much more. Give your Atari something to do!

■ 133 THE ICON SHOP

The Icon Graphics Editor lets you easily draw or modify your own finely detailed Print Shop icons! This professional quality MACpaint-style drawing tool contains loads of features and may be used with joystick, Koala Pad, or mouse. It will also allow

you to save P.S. icons in DOS 2.5 format for trading with other users, especially with a modem. Sample icons are included, along with complete instructions. Now you can do more with your icons.

■ 134 PACTOOL & PRINT SHOP UTILITIES

PACTOOL will pack (compact) any Print Shop files into 1 package file! It allows storage of large numbers of P.S. icons on 1 disk (useful for club libraries), and permits easier transfers over a modem. Package files may later be easily unpacked. Included are 5 sample package files containing dozens of new icons. Also included is the program SHOPTOOL which allows you to display your Print Shop icons in a colorful slide show format! It also converts icons from P.S. to Atari DOS 2 format, and back again. Another program, The Print Shop Picture Print Utility, prints your icons in 7 columns, fast!

■ 142 X-Y PLOT GRAPH ENTRY

Graphics and limited statistics package for home and small business use! Create hi-res X-Y axis graphs to display your information on screen or dump to printer. It can even plot multiple curves! Fully menu controlled, with a statistical summary option, and help files.

■ 147 VIDEOFILE AUDIOFILE

VIDEO TAPE - Fast menu driven database for video tapes, featuring search, sort, and update commands, etc. (ML)(DOC)

TAPE FILE - Creates a database of 1-200 cassette tapes and prints labels for each. (BAS)

CASSETTE - Creates and prints quality custom labels for cassettes. (BAS)

DOT-CROSS - TV alignment cross-hatch generator. (BAS)

SATELLITE LOCATOR - Computes satellite locations for various communications satellites. (BAS)

TIMER - Computer stop watch. (BAS)

ALARM - Computer alarm clock. (BAS)

■ 148 HOME UTILITIES #2

INVEST - Record capital and expenses. (BAS)

CALCULATOR - Useful on-screen pocket calculator simulator features 12 function display with memory! (BAS)(DOC)

CIRCUIT - Unique printed circuit compiler and editor! Draw circuits with a joystick, using icons, and then save or print them out on an Epson compatible. (BAS)

MATT"EDIT 1.4 - Updated version of MATT"EDIT! Easily create your own newsletters on your Epson or Star compatible printer. (BAS)

CAD - Small CAD demo draws 3-D objects using a joystick. (BAS)

BIORHYTHM - Displays color biorhythm graphs on screen for any date! (BAS)

■ 239 DAISY-DOT II ACCESSORY PACK

Over 30 additional NLQ fonts for use

with Roy Goldman's DAISY*DOT II (Theme Disk #D-21). Now you can make your printed text look even more professional. Also, an AtariWriter Cartridge patch permits AtariWriter formatted text files to be re-directed to disk instead of to printer. In other words, it'll save the text file to disk, either in ASCII (which may be used with DAISY*DOT II), or with the printer codes intact as an exact "spool" file that may be printed (without the cartridge) by anyone.

■ 286 PRINT SHOP UTILITIES

P.S. PRINT - Prints your Print Shop Icons in miniature format, including the name, on an Epson compatible printer. (ML)

P.S. TO NEWSROOM - The Print Shop to Newsroom I-Con-verter converts your Print Shop Icons for use with Newsroom. (BAS)(DOC)

P.S. PICTURE - Allows any number of Print Shop Icons to be placed onto one screen at once. Icons may be overlaid or not, to create dramatic visual effects. Finished screens may be saved in 62 sector MicroPainter format for later viewing or printing. (ML)(DOC)

P.S. VIEWER - Loads 6 icons from any P.S. disk, displays them on screen, and dumps them with filenames to an Epson compatible printer. (ML)

P.S. DIRECTORY - Prints a 4-column directory of your Print Shop saved icons to any printer. (BAS)(DOC)

DOUBLE-SIDED THEME DISKS

■ D-4 TEXTPRO 2.5r

This super 100% machine language word processor allows you to do professional text processing! Almost every feature you would want in a word processor: cut & paste, search & replace, editing, word count, ASCII output, and much much more. It even contains full keyboard macro features! Handles "any" size or type of text file and supports all RAMdisks and most DOS formats. Nearly all DOS commands are built in! It's compatible with the EXPRESS! terminal program and comes with 800+ sectors of documentation. Textpro 2.5r beats most commercial word processors hands down. Great value!

■ D-5 ATARI CADICAM

This CADICAM facility layout allows you to design simple graphical layouts or plans for houses, lots, floors, or rooms, etc! Your finished layouts can be scaled to any size and viewed from any angle, similar to the expensive CADICAM systems. Drawings may be saved on disk or printed on an Epson compatible printer. Written by two professionals, this package also includes sample drawings and instructions. (Translator is required with XL/XE models when using the program's printer utility.)

■ D-6 DIET & NUTRITION GUIDE

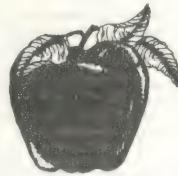

Computerized calorie and nutrition guide that's personalized to help you monitor your calorie intake and to assess the nutritional value of your daily food intake. This serious package permits detailed and accurate analysis of over 500 common food and drink items! A powerful aid in meal preparation and/or dieting. If you're dieting, then this program's for you! Complete instructions included.

■ D-21 DAISY*DOT II

The famous Daisy*Dot II printing system for all Atari models. Written in C, this powerful Desktop Publishing program package prints text files with a myriad of formatting features. Special techniques achieve near 24-pin quality output using only your 9-pin Epson compatible printer. You can also combine pictures with text using BILLBOARD (Theme Disk #072). Comes complete with 15 printer fonts and documentation. An amazing Shareware program by Roy Goldman!

■ D-22 GOURMET #1

Collection of over 50 authentic Chinese recipes for use with New Horizons Software's "Computer Gourmet" program.

GOURMET disks are designed for use with New Horizons Software's "The Computer Gourmet" program. Don't have "The Computer Gourmet"? It is possible to read and/or print the files using your word processor, however, the output will not be tidy. A utility to list the disk's recipes to any printer is included.

■ D-23 GOURMET #2

International collection of recipes from around the world for use with New Horizons Software's "Computer Gourmet" program.

■ D-24 GOURMET #3

Collection of over 50 economical ground beef recipes for use with New Horizons Software's "Computer Gourmet" program.

■ D-25 GOURMET #4

Collection of desserts, salads, soups, and entree recipes for use with New Horizons Software's "Computer Gourmet" program.

■ D-26 GOURMET #5

Tasty collection of authentic Italian recipes for use with New Horizons Software's "Computer Gourmet" program.

■ D-27 GOURMET #6

Unique collection of stews and casserole recipes for use with New Horizons Software's "Computer Gourmet" program.

■ D-28 CAD-XE

3-D Computer Aided Design program package written in Kyan Pascal for the 130XE! Menu driven with a clear hi-res display. Easily create fully rotatable 3-D wire frame drawings using your joystick. Shareware by David Foster. (Runs only on the 130XE!)

■ D-29 VIDEO JUKE BOX

Create sharp title screens for your VCR recordings, along with computerized background music! Convert MicroPainter or Micrillustrator pictures to Print Shop Screen Magic format and back again and combine P.S. and/or P.S. Companion icons, fancy text, and pictures to create colorful graphics screens. Over 30 ready-made musical tunes are also included in this Shareware package by Chris Wareham.

■ D-30 THE DIGITAL EDITOR

The Digital Editor from Germany lets you get your feet wet in simple Desktop Publishing. This program package in Turbo Basic lets you produce a small newsletter or magazine on disk or paper. Pages are stored in standard 62 sector (MicroPainter) files for easy modification and printing. During the creation of your publication, the MENU allows you to select the Graphic Drawing Utility, the Photo & Picture Converter, the Digital Editor, the Magazine Maker, and the Hardcopy Maker. Sample pages and translated instructions included. (Runs on XL/XE models only!)

■ D-31 EAT WELL! LIVE LONG!

"Eat Well, Live Long, Prosper" is a variation of Diet & Nutrition Guide (Theme Disk #D-6) written in the Action! language. Essentially the same as #D-6, this faster version also personally monitors your calorie intake and assesses the nutritional value of your daily meals. Two versions are included. One is a regular version for use on all Atari models, and the other is a version for the 130XE utilizing RAMdisk for even faster operation.

■ D-32 DISK FILES MGT SYSTEM

Organize all your disk program files! Version 2.30 allows any number of data files with up to 500 entries on each. Accepts a large amount of information on each program. Menu driven and easy to use. Includes a 26 page manual. RAMdisk is utilized if you have the 130XE, and there's even a utility to recover damaged data files. This has it all!

■ D-59 GOURMET #7

Variety of useful and tasty DIABETIC cooking recipes for use with New Horizons Software's "Computer Gourmet" program. Excellent for people on low sugar diets.

UTILITIES

■ 008 CARTRIDGE COPIERS

Cartridge copiers transfer cartridge programs to disk. They have a limited success rate and their use requires MUCH patience and some experience.

CARTDUMP - Copies some 8K/16K cartridges to disk. (ML)(DOC)

CARTDUMP - Cartridge copying utility. (BAS)

CARTCOPY - David Young's cartridge copier! (BAS)(Translator required with XL/XE models.)

CARTCOP - Good cartridge copying utility. (ML)

CARTCOPY 2 - Allen's 8K/16K cartridge copier. (ML)

CRTCOPY - Copies some 8K cartridges to a boot tape. (ML)(DOC)(Translator required with XL/XE models.)

COPYCART - Yet another cartridge copier. (BAS)

■ 041 THE TRANSLATOR DISK

The original "TRANSLATOR" configures the Atari XL/XE operating system to that of the Atari 400/800 system, allowing software written for the older 400/800 computers to run on the newer XL/XE machines. It loads both BASIC and BINARY program files from either disk or cassette. Simply load it, then run your programs. Everyone Atari XL/XE owner needs a Translator!

■ 042 ATARI DOS 4.0

Here's Atari's \$100.000 "Q-DOS" for the famous 1450XL and all other 8-bit Atari computers! It's compatible with single, 1050, and double-density, and it's faster than either DOS 2.0 or DOS 2.5. Complete documentation is included with an exclusive 100+ screen on-line [HELP] system. Even if you don't use it, it's worth seeing.

■ 044 fig-FORTH 1.4s TUTORIALS

Large self-tutorial on Atari fig-FORTH 1.4s Type "LIST", then follow the on-screen prompts to step through the many examples and demos. Even player missile graphics are covered. Obtain the fig-FORTH 1.4s Source Code (Disk #045) in order to get full benefit from the lessons. A painless introduction to fig-FORTH! (Translator is required with XL/XE models.)

■ 045 fig-FORTH 1.4s SOURCE CODE

The popular Atari fig-FORTH 1.4s including FORTH, and EDITOR/ASSEMBLER! Features excellent stack display. First published in Softside, this version of fig-FORTH is still one of the best. Obtain the fig-FORTH 1.4s TUTORIALS disk

(Disk #044) for use with this version of fig-FORTH. (Translator is required with XL/XE models.)

■ 046 C COMPILER/EDITOR

Considered to be faster and better than Deep Blue C, this disk contains the D.V.C. Compiler, Editor, and numerous files, including Player Missile demos, Graphics-8 hi-res demo, Ramdisk for 130XE & Mosaic, Games in C (Cube, Life, Snake), and more. This Shareware disk lets you sample programming in C! Some knowledge of C language is required. Most computer stores carry books on C. (Translator is required with XL/XE models.)

■ 047 MENUS

15 handy disk menus for any occasion

AUTOMATE - Creates an AUTORUN.SYS file to autoboot "any" BASIC program. (BAS)

BOOT EDIT - Creates either of 2 autorun menus on your disk with custom titles: (1) Code Cruncher (CC) hides in sectors 0-2, leaving a full 707 sectors programs. DOS is not required on the disk! (2) v2.2 DUP.SYS uses only 5 sectors! (BAS)(DOC)

LOADIT - Load any file, rename, delete, format, and create an autoboot disk. (BAS)

BAS AUTO - Lets you autoboot "any" BASIC program. (BAS)

AUTORUN - Autoboot any BASIC file named MENU. (ML)(DOC)

MICRO DOS - Attractive menu with keyboard and joystick control. (ML)(DOC)

MIL MENU - Autoboot menu featuring an Atari logo with flowing GTIA graphics. (ML)(DOC)(Translator is required with XL/XE models.)

AUTOMENU - This menu has multi-drive support, DOS commands, loads all file types, [HELP] key, and displays DOC files. Every feature! (ML)(DOC)

MIL MENU MAKER - Create a colorful binary file menu loader with custom titles. (BAS)(Translator is required with XL/XE models.)

MENUS 1-6 - Collection of 6 user group MENUS featuring various different options such as BAS/OBJ/DOC file loading, DOS commands, printer access, and either keyboard or joystick control. (BAS)

■ 048 PRINTER [EPSON]+

14 great printer utilities

EPSON TYPE - Use your Epson compatible printer as a typewriter! (Limited compatibility with other printers.) (BAS)

EPSON LIST - Print program listings

on your Epson compatible containing inverse, Ctl, or graphic characters. (BAS)

EPSON VISICALC - Enter Visicalc setup codes for Epson MX80 compatibles. (BAS)

SYNLABEL - Syn-type look alike prints customized disk labels on an Epson or Gemini compatible. Print up to 64 files in 5 columns using type fields. Handles all disks. (ML)

EPSET - Menu driven Epson compatible printer driver sets up all control code combos for special printing needs. (BAS)

GEMSET - Gemini/Star printer driver to set up all control code combos for special printing needs. (BAS)

GEMLABEL - Prints disk labels on Gemini/Star printers. (BAS)

VERSLABEL - Prints disk DIRectors on any size label in 128 different formats on an Epson compatible. Custom design your disk labels! (BAS)

LABEL 1025 - Print disk labels on the Atari 1025. (BAS)

LABEL 1020 - Print disk labels on the Atari 1020 Plotter. (BAS)

SIOFIX - Does your Atari 1027 "go to sleep" at times?? This cures it! (ML)(DOC)

PRINT SCREEN - Causes text to print to any printer instead of on the screen. (BAS)

ATARIWRITER DRIVER - Use non-Atari printers with the AtariWriter cartridge (Mode 2) by entering your printer's codes. (ML)(Translator is required with XL/XE models.)

EPSILON LABEL - Print small disk labels on your Epson compatible. (BAS)

■ 049 BASIC AIDS #1

21 Utilities to make your BASIC programming easier.

BASIC FIX - Fixes the 800XL "Vers B" BASIC bugs. (BAS)

BASIC SWITCH - Switch BASIC on/off from DOS on XL/XE models. (ML)

PROTECT - Prevents a BASIC file from being read, by writing over the BASIC statements with Ctl characters. (BAS)

XREF - Prints a chart referencing program variables to their line numbers. (BAS)

FINDVAR - "ENTER" this utility to list and locate variables and constants, and to list line references, etc. (BAS)

CROSS REFERENCE - Displays variable references. (BAS)

RENUMBER - Line re-numbering utility. (BAS)

EDITOR - Delete, move, copy, and count program lines. (BAS)

EXTBAS - Adds 12 new commands to Atari BASIC related to DOS, editing, etc. (ML)(DOC)

SETPOKE - Visually compare all SETCOLOR values for GR.1 & 2 screens. (ML)

FUNCTION KEYS - Define function keys as macros. (BAS)

CX85 PAD - Use the Atari Keypad with BASIC. (BAS)

BUBBLE SORT - Two bubble sort demos you can use. (BAS)

SOLID GOLD INPUT - Demo on error trapping. (BAS)

OUTPUT - Cause text to appear from screen center. (BAS)

LOADIT - View DIRECTORY and load files from BASIC. (BAS)

LINE LISTER - Aid for viewing program listings. (BAS)

WRITER - Write or read DOC files. (BAS)

BLINK - Create blinking inverse text. (BAS)

SCROLL - Scroll text on a GR.2 screen. (BAS)

■ 050 COPY-IT #1

The DOS on this disk is a modified DOS 2.0 which includes SuperDUP, a powerful sector copier.

FORMATIX - Powerful multi-disk formatting system with a verify utility. (BAS)

FORMATTER - Format multiple disks, write DOS files, and more. (ML)

THE MAID - Perform disk file cleanup, multi-file copying, and built-in DOS commands. (BAS)

C-BOOT MANAGER - Duplicate any single stage MIL boot tape to either cassette or disk. (BAS)

OBJD2CAS - Copy any OBJ file to a boot tape. (BAS)

BOOT TAPE - Copy single stage MIL boot tapes to a disk (opposite of above). (BAS)

DISK TO TAPE - Backup an entire disk onto cassette tape. (BAS)

CARTCOP - Copy "some" 8K cartridges to a boot tape. Experienced only! (ML)(DOC)(Translator is required with XL/XE models.)

BLACK RABBIT v2.0 - Create a copy of the famous Black Rabbit. It copies an entire disk in 2 passes. (BAS)

SYNCOPY - Very fast Syn-type 3-pass single-density sector copier. (ML)

DUPFAST - Fast 2-pass sector copier. (ML)

DUP2DRV - This sector copier supports 1 or 2 drives. (BAS)

POLYCOPY - Copies multiple disk files at once and can even copy files to several disk drives at once! (BAS)

MFDPD - Copy multiple disk files at once. (BAS)

DBLSCOPY - Double-density supported sector copier. (ML)

SECTOR COPY - Copy only specified disk sectors. (ML)

COPY130 - Use your 130XE to copy an entire disk in just 1 pass. (BAS)

■ 051 TEST & FIX

FIXXL - This XL/XE Translator will load "all" programs on XL/XE models.

Some even say it's better than Atari's! (ML)(DOC)

HOME MADE TRANSLATOR - Loads older programs on the XL/XE models and even gives an extra +4K RAM! (BAS)(The Atari Translator Disk #041 is required by XL/XE models to create the resulting AUTORUN.SYS file.)

COPY32 - Converts incompatible DOS 3 files to DOS 2.5 compatibility. (ML)

DISK FIX - Now retrieve deleted program files, repair glitched files, verify sectors, and more. (ML)

RAM CHECK - Tests your Atari's RAM and then relocates to test "all" locations. (ML)

DISK TEST - Good "burn-in" test to check out disk drives and/or disks. (BAS)

DRIVE TEST - Professional "field exerciser" for the Atari disk drives. Features alignment and burn-in tests to check out your drive. (ML)(Translator is required with XL/XE models.)

RPM TEST - Tests drive's speed with a continuous visual display. (BAS)

DISK SPEED - Displays a disk drive rpm speed chart. (BAS)

UNDELETE - Recovers deleted disk files. (BAS)

SECTOR CHECK - Test or check individual disk sectors. (BAS)

SYSTEM STATUS - Checks all systems at power-up. The display shows devices present/not present, disk DIR, memory, etc. (BAS)

SYSTEM STATUS SYS - Autorun file for SYSTEM STATUS above. Rename "AUTORUN.SYS" to use. (ML)

STICK TEST - Tests joysticks for response. (BAS)

TV ADJUST - Professional quality tool to set up and/or adjust your color or b&w monitor/TV. Menu driven, with accurate test patterns. (BAS)

COLOR BARS - Displays NTSC color bars on a color monitor/TV and grey scale on a monochrome screen. Calibrate to professional specs! This program was designed using a vector scope (hue) and a waveform monitor (luminance). (ML)(DOC)

TV TEST - Tests TV alignment. Simple, but gives comparison. (BAS)

■ 052 SECTOR EDITORS

Some knowledge of DOS file structure may be required to fully use these handy programs. Refer to articles or books for assistance, and always (always!) make a backup of your disk.

DICK TOOL - A sector editor to customize and/or debug disk files, step through/trace sector chains, modify links, read/write to specified sectors and more. Dumps display to any printer. Full instructions. (BAS)(DOC)(Translator is required with XL/XE models.)

DOSWIZ - Disk sector analysis tool that lets you recover lost sectors, fix unreadable sectors, locate/repair bad sectors, display both Hex and ATASCII code, and more. (ML)(DOC)(Translator is required with XL/XE models.)

VTOC FIX - Displays/fixes the

Volume Table Of Contents (VTOC) of a disk. You may need this some day! (ML)

DISK EDIT - View and/or edit any disk sector. (BAS)

DISK PEAK - View individual disk sectors. (BAS)(Translator is required with XL/XE models.)

■ 053 PROGRAMMER'S TOOLS

1

The DOS on this disk is a modified DOS 2.6, known as Black DOS that allows all regular DOS functions. Plus, copy sectors, check sectors, radix convert, check drive speed, verify on/off, and more.

DISASSEMBLER - Disassembles "any" code from "any" binary disk file (even commercial program files!) or from RAM memory, to the screen, disk, or printer. (BAS)(DOC)

ASSEMBLER - Fast 1-step assembler/disassembler that directly puts your opcodes into memory. Lets you write MIL subroutines. (BAS)

DISASSEMBLER 6502 - Disassembles and view the 6502 opcodes (BAS)

COMPRESS - This unique compiler compresses most binary program files as much as 20%! Now >>squeeze<< more OBJ files onto your disks. (ML)

DEBUG+ - Commercial quality program debugger that allows you to trace MIL programs, disassemble binary files, display registers, search out strings, and more! (ML)(DOC)

FILE INFO - Displays ADDR LOC information on DOS load AUTO-RUN.SYS files. (ML)

ORIGIN FINDER - Locate and display LOAD ADDRESS/ENTRY locations for OBJ files. (BAS)

DLDUMP - Gives Display List info for graphic screens. (BAS)

DUMPER - Obtain a HEX/DEC/OCT/BIN dump to either screen or printer of any disk file, or from RAM memory. (BAS)

AUTODATA - Convert USR code to DATA input. (BAS)

AUTOTYPE - Convert USR code to strings. (BAS)

DEC2HEX - Convert from DECimal to HEX. (BAS)

DEC2BIN - Convert from DECimal to Binary. (BAS)

HEXTODEC - Convert from HEX to DECimal. (BAS)

EDIT 4TH - Hey fig-FORTH fans! Transfer FORTH code into text files and vice versa. Use the text files to edit FORTH from BASIC using a word processor. (BAS)

■ 054 DISK UTILITIES

CLEAN - Clean up disk files on up to 2 disks at once (using 2 drives). Combines the ease of use of a menu driven DOS with the programming capability of batch files. Clear 4-window display supports single/double-density. Full instructions. (ML)(DOC)

BLACK DOS - Modified DOS 2.6 that allows basic DOS functions. Plus copy sectors, check sectors, radix convert, check drive speed, verify on/off, and more. (ML)(DOC)

DIR SORT - Alpha sorts your disk's

DIrectory. (ML)

RAMDISK 2 - Configures the 130XE's extra RAM for use with DOS 2.0 or OSS DOS XL. Creates D4, a 503 sector RAMdisk. (ML)(DOC)

RAMDISK - Configures the 130XE's extra RAM for use with DOS 2.5! Creates a RAMdisk (D8) of 499 sectors and permits instant DOS access from BASIC. Every 130XE user should have it! (ML)

SETUP - Configure DOS 2.5 to "your" needs! Change drive #s, set up autorun files, change system configurations, write verify on/off, etc. (ML)

MACRO DOS - Provides instant DOS access from BASIC and more. (ML)(DOC)

INVISIBLE SECTOR - Shhhh! Create a secret file label on sector 720 of any disk to hold a title, date, serial number, and name. (BAS)

XDRV - This display device driver creates 80-column text that can be read off your TV screen without any modifications! Use it with your BASIC programs. (ML)(DOC)

NO CLICK - Remove the annoying (?) key click sound from your Atari 800 keyboard. (ML)

■ 111 TURBO BASIC 1.5 & THE TURBO COMPILER

Turbo Basic! The fantastic new BASIC programming language from Germany that uses all the regular Atari BASIC commands, plus dozens of additional new and enhanced commands. It is 100% compatible with all Atari BASIC files and will run your existing BASIC programs up to 3 times faster! Documentation and command lists are included. Plus The Turbo Compiler! It will increase the speed of Turbo Basic programs 3-5 times, and regular Atari BASIC programs 10-15 times faster! This easy to use compiler out performs most commercial compilers and comes with documentation. (For Atari XL/XE models only.)

■ 112 TURBO BASIC PROGRAMS

These programs require Turbo Basic to run and can only be used on Atari XL/XE models. Disk instructions are included.

MAGIC! - Fantastic Koala-type drawing program! (TUR)

TIDIER - Converts text files transferred from BBS's or other computers to Atari format (removes 'funny characters) and also splits up large text files for easier use. Handy! (TUR)(DOC)

TYPING TRAINER - Touch typing trainer in German. (TUR)

EUCHRE - Good 4-hand Euchre card game. (TUR)(1 Ply/KB)

HANOI - Solves the Towers of Hanoi puzzle. (TUR)

CLOCK - Working clock display. (TUR)

NDR - TV/monitor test pattern. (TUR)

PM MOVE - Player Missile graphics demo. (TUR)

PUTIGET - Demonstrates Turbo Basic's speed. (TUR)

TEST - Compares BASIC to Turbo

Basic speeds. (BAS)

■ 113 ATARI BASIC POWER PACK

Bob DuHamel has created a series of powerful BASIC subroutines designed to be used like macros or run-time files in your own BASIC programs. Easily perform over 2 dozen special functions including faster disk access, English error messages, DOS functions from BASIC, mix/test graphics on screen, load custom fonts, fast load graphics, and much more! Full instructions.

■ 114 ACE C

The Ace-C compiler and linker is a newer version of APX's Deep Blue C! Runs 10-15 times faster than Deep Blue C, and program execution is twice as fast. Comes with all necessary files, including documentation and libraries of standard and graphic functions. Requires knowledge of C ("The C Programming Language" by Brian W. Kernighan & Dennis M. Ritchie is recommended reading).

■ 115 COPYMATE 4.4

CopyMate 4.4 is up to 50% faster than other sector copiers! 1-pass copying on the 130XE and 2-pass copying on all other models. Features auto drive selection, copying of disk formats, density switching, DIR from D1/D2, and a unique visual display. Documentation can be accessed from DOS.

■ 116 ACTION! UTILITIES #1

Over 1 dozen graphics orientated ACTION! programs including demos, hints/tips files, and more. Also, a pseudo-assembler with floating point and error trapping routines, plus documentation. (ACTION! cartridge required.)

■ 117 ACTION! UTILITIES #2

17 ACTION! source files including 4 Epson compatible screen/chr dump routines, a super-fast GTIA screen loader, an internal DUP.SYS in ACTION!, 5 graphic demos, DL1 demos, and more. (ACTION! cartridge required.)

■ 118 PRINTER+

GEMSET v3 - Gemini/Star compatible printer driver. (BAS)

FONT DUMP - Create or edit custom character fonts and print to Panasonic or Roland compatible printers. (BAS)(DOC)

LABEL MAKER - Edit or print any size, any number, any format of labels on an Epson compatible. (BAS)

EPSON LABEL - Print big labels on an Epson compatible. (BAS)

GEM LABEL - Gemini-10X 4"x1 7/16" label printer. (BAS)

RAINBOW - Plot multicolor text on an Atari 1020. (BAS)

JACKET - Prints jacket covers for diskettes. (BAS)

DIRPRINT - Prints neat 4-column disk directories. (BAS)

PRINTDOC - Prints Documentation files. (BAS)

AtariWriter DRIVERS - 19 programs that allow all special control codes to

be used on the Mannesmann, Pro-riter, IDS 40, NEC 8023A, Gemini (10, 10X), OK (192A, 193A), Atari (1020, 1027), Epson (MX80, MX80FT, MX80GRF, MX100, MX100FT, MX100GRF, FX80, RX80, EMX80FT).

■ 120 STAR-NX10 NLQ

The Star-NX10 Font Editor easily creates 11x16 NLQ (Near Letter Quality) fonts using a joystick. Complete with instructions and 7 ready to use NLQ fonts including Deco, Italic, Penned, etc. Get the best from your Star-NX10 compatible!

■ 121 DOS 2.5 IN GERMAN

Surprise your friends! This disk contains a 100% German language Atari DOS 2.5 that's compatible with the English version! Complete with DOS.SYS and DUP.SYS files, plus the German version of utilities RAM-DISK, DISKFIX, SETUP, and COPY32. All work just like the English versions.

■ 122 UTILITIES IN GERMAN

The following programs require a knowledge of the German language. 80ZEICH - 40-80 column text display demo. (BAS)

ADRESSEN - Adressenverwalten und drucken. (BAS)

COUNTER - Time cassette tape files. (BAS)

DIRDRUCK - Directory-ausdruck auf dem 1029. (BAS)

DRUKTEST - Tests printer codes. (BAS)

PLAYERS - Player Missile demo. (BAS)

SINUS - Sinuskurve prints a sine wave. (BAS)

TAG - Calendar program utility. (BAS)

VOKABEL - Vokabeltrainer is a German/English language trainer. (BAS)

MENUE 1-3 - Three nice German menus featuring GTIA and Player Missile graphics. (BAS)

RBERECH - Widerstandsberechnung.

HIFI - Plans to connect an Atari to a stereo. (BAS)

DISKMONI - Disassembler, disk search/monitor in Turbo Basic. (TUR)(DOC)(Runs on XL/XE models only.)

■ 123 ARCHIVERS #1

Increase disk storage space for backups, copy 'some' protected disks or transfer entire disks at once with a modem.

ARC 1.2 - Compresses and combines disk files into a single ".ARC" file! ARCed file format is identical to ARC files on the ST, IBM PC, etc. Version 1.2 ARCs any size file and is 20-30% faster than previous versions! (ML)(DOC)

ARCX 1.2 - Extracts files from a compressed ARC file. (ML)(DOC)

SCRUNCH - Compresses any single-sided single-density disk into a single file, using 1 or 2 drives. (ML)(DOC)

UNSCRUNCH - Returns a file created with SCRUNCH to its original condition. (ML)

SCRUNCH 2 - Compresses any single-sided single-density disk into a

single file, using 1 or 2 drives, and can also return the file to its original condition. (ML)

■ 124 SUPER COPIERS

PIRATE - Ultimate Pirate Utility! Scan for double sectors and dump sectors, and list bad sectors. (BAS)

UNPROTECT - Unprotect unLISTable BASIC files (BAS)

COPYDISK - Copies a disk protected by bad sectoring, when DOS will not. (ML)(DOC)

SHADOW - Excellent file copy and/or disk reorganization utility. Supports single/double-density, full buffer copying, and more. Shareware by Gary Crider. (ML)(DOC)

ZEROFREE - Reads in directories of your binary file disks, then sorts up to 500 files to occupy the least number of disks. (ML)

BLACK RABBIT 3.0 - The famous Black Rabbit 3.0 single-density disk copier. Supports 1-2 drives. (ML)

DD BLACK RABBIT - Black Rabbit double-density disk copier. Supports 1-2 drives. (ML)

HEADER - Binary file analyzer. Gives 1st byte, 2nd byte, START ADDR, END ADDR, and length. (BAS)

NORTH LONDON UTILITIES - "North London Utilities Super Boot Loader Program"! A compendium of useful programs to copy BASIC and BINary program files and/or convert files between disk and cassette. (BAS)

■ 125 COPY-IT #2

BINARY - Make an unprotected auto-boot disk into a standard DOS file. (BAS)

COMPACT - Compress LISTed program files. (BAS)

MULTI-LOAD - Multi/single stage tape copier. (BAS)

TAPEDEU - Backup single stage boot tapes. (BAS)

TAPEDISK - Copy single stage boot tapes to disk. (BAS)

DSK2TPE1 - Make a boot tape from a BINary disk file. (BAS)

DSK2TPE2 - (Another version of the above). (BAS)

CASSDISK - Transfer a boot tape to disk. (BAS)

COPY PLUS - Sector copier in ACTION! with many options, including multi-file copying. (ML)

MULTI-COPY - Multi-file copier accessed with a joystick. (BAS)

FILE COPY - 1 or 2 drive multi-file copier. (BAS)

QUICK COPY - Fast 1 or 2-pass disk copier. (ML)

SECTOR COPY - This fast sector copier supports 1-2 drives with ASCII display. (ML)

FORMAT - Handy disk formatter utility. (BAS)

CONVERT - Converts any DOS 3 file to DOS 2.5 format. (BAS)(DOC)

LOCK PICK - Sector copier for DOS 2.5 only. (BAS)

■ 126 MONITOR DEBUGGER +

DISASSEMBLER - Disassemble "any" disk sector(s) to either screen or printer. (BAS)

MONITOR - 6502 system monitor that's superior to the one on the Assembler/Editor cartridge. Has simple Trace, Single Step, and List functions, etc. (ML)(DOC)

RAM EDIT - This sector editor/copier for the 130XE edits an entire disk from RAM. It's fast! (BAS)(DOC)

SEARCH - Checks disk for errors or bad sectors. (ML)

HEADER - Analyse DOS files as to type, START ADDR, END ADDR, length, etc. (BAS)

HEXDUMP - Dump any disk file to printer. Displays HEX code with ATASCII. (BAS)

BINDEC - Convert BIN to DEC or DEC to BIN. (BAS)

INSPECT - Prints the HEX value of any MEM ADDR. (BAS)

RAMTOP - Determines RAMTOP. (BAS)

TAPE DUMP - Obtains bytes from tape and dumps HEX and DEC opcodes to a printer. (BAS)

SORT OUT - Compares a revised program with the original and records changes. (BAS)

RAM XE/XL - Allows an extra 13K RAM on XL models, and an extra 64K RAM on 130XE's. Includes demo of use. (ML)(DOC) (For Atari XL/XE models only.)

XLDSO - Modifies DOS 2.0 for instant DOS! (BAS)

■ 127 UTILITIES

SUPER KEY - Keyboard macro processor for XL/XE models that defines 17 macros! (ML)(DOC) (For Atari XL/XE models only.)

KEYPAD - Configures the CX85 Keypad for use with BASIC/Non-BASIC programs on the XL/XE's. (ML)

XE57K UPGRADE - Complete instructions for a 57K 130XE upgrade, with a RAM tester utility. (ML)(DOC)

DOCUMENT - Prints or displays DOC files. (ML)

FILE READER - Reads any DOC file from BASIC. (BAS)

DOC PRINTER - Easily print DOC files. (BAS)

COLUMN 80 - Creates readable 80 column text. See your BASIC programs and DOS in 80 columns! (ML)

COLOR ALIGNMENT - Adjust the computer's color output. (BAS)

STICK TEST - Test joystick responses. (BAS)

CLOCK - Displays digital clock. (BAS)

DEREZ - De-rezilizer to de-compact pictures. (ML)

NODOS - This binary menu does not require DOS! (BAS)

■ 128 BASIC AIDS #2

BASIC WEDGE - BASIC programmer's utility for the 130XE, featuring DOS access and LOMEM adjustment. (ML)(DOC)

RENUMBER - Line renumbering utility. (BAS)

SCREAD - This routine allows full-screen input. (BAS)

AUTOBOOT - Autoboot BASIC pro-

grams. (BAS)

CURSOR LINE - Screen-wide cursor. (BAS)

CURSOR - Flashing cursor. (BAS)

HIGHLIGHTER - Blue cursor line. (BAS)

NFCURSOR - Flashing underline cursor. (BAS)

QUICK SORT - Learn how to do "sorts" in BASIC. (BAS)

GRAPHIC CHARTS - Reference charts for Atari graphic screens. (BAS)

SCROLLIT - Create scrolling hi-res messages. (BAS)

STRINGER - Enter string statements. (BAS)

BASIC - Lost your BASIC cartridge? Here's a compatible BASIC. (ML)(DOC)

■ 129 POWER PACK UTILITIES

PICFIX and PLOTTIT are two powerful utilities using the Atari BASIC Power Pack routines! PICFIX is an enhancer for Micrillustrator (Koala) picture files to add text, spray can effects, and more. PLOTTIT creates fast professional looking point, line, bars, and 3-D column graphs. Documentation included. Shareware by Bob DuHamel.

■ 130 THE SECTOR TOOL

Included with this powerful sector editor is an interactive tutorial on disk data structures by David Young, which shows you how to use it. This is just what you have been looking for! Sector Tool is a powerful sector editor which also features disassembling, sector copying, and disk mapping functions. As a bonus, you also get a disk VTOC mapper and a file dumper. Now you can learn to customize and/or repair those disks!

■ 131 SYMBOLIC DISASSEMBLER

Full symbolic disassembler to disassemble files from either memory or disk, or to explore individual disk sectors. Even disassembles commercial programs! Documentation is included, but some knowledge of machine language is required to fully use this powerful utility.

■ 136 DOS 2.5 TUTORIALS

Art Bross guides you through the Atari DOS 2.5 Disk Operating System, thoroughly explains ALL menu commands, and gives many time saving tips. Easy to understand. Every Atari DOS 2.5 user should have this!

■ 237 DOS 2.5+

DOS 2.5+ is a modified Atari DOS 2.5 that features a fast write, and allows upper/lower case and underline to be used in file names. Comes with RAMdisks for all Atari models, a custom font, and is compatible with DOS 2.0, DOS 2.5, SmartDOS, TopDOS, MyDOS, and features a Happy enhanced drive patch. Shareware by Tim Patrick.

■ 238 FONT MASTER

This unique print utility written in Action! lets you print files with all Atari graphic characters included.

Print in ASCII, ATASCII, or choose from over 40 character sets. You can also change print sizes and/or line widths. A second useful function allows you to print your SynCalc reports "sideways" on the paper! Compatible with all Epson compatible printers. Shareware by Mike Fulton.

■ 240 GRIP ASSEMBLER

The GRIP ASSEMBLER will assemble machine language instructions in memory as each line of Assembly language is entered. Further compiling is unnecessary! Fast menu driven assembly/disassembly with printer support. [HELP] key on the XL/XE models. Instructions included, but experience in 6502 Assembly is required. Shareware by Bruce Henry.

■ 241 PRINTER FONT MAKER

Easily create custom character fonts for your Epson compatible printer! Then use any word processor to print text in the new style. Eight ready-to-use fonts included.

■ 242 MyCopyR!

Versatile disk copier capable of single-density, double-density, and even 1050 density disk copying. Copies up to 50% faster than most copiers and utilizes RAMdisks in the XL/XE models. Also supports ICD's Ultraspeed Skew formatting on US Doubler equipped 1050 drives for high speed I/O. Great!

■ 243 SOFT KEYS

Create up to 10 programmable function keys for your 8-bit Atari, such as on the ST or IBM PC! Complete with documentation and four ready-to-use functions.

■ 244 HARD DISK TOOLKIT

4 great utilities for use with SpartaDOS and Hard Drives! SORT IT! is a SpartaDOS directory sorter. THE KILLER, versions 2.1 and 3.0, allows for multiple file deletions for directories/sub directories. PARKED! will park the head of your hard drive. SPEEDSDIO installs high speed SIO routines from SpartaDOS. Shareware by Cabell Clarke.

■ 245 ADVANCED PROGRAMMING

MTOS - Fascinating working demo of a multi-tasking OS for Atari 8-bit computers. Allows operation of 2-3 BASIC programs at once! (ML)(DOC)(Runs only on 256K and 130XE models.)

DUD - The Dataset Utility Dump will dump (print or display) in over/under CHR/HEX format, any DOS file or parts, any valid memory address range, or any disk sector(s). Single or double-density supported. Similar to IBM's DOS DITTO. Shareware by Gary Crider. (ML)(DOC)(Translator is required with XL/XE models.)

PROBJ - Utility for processing Atari DOS Object (load) files. Produces RAM address MAP of segments in a load file, compresses segments, and deletes segments. (ML)(DOC)

MAC65 MACROS - MAC65 macro library for the adventurous! Perform many functions with Atari BASIC-

like commands. (ML)(MAC65 is required.)

■ 246 ARCHIVERS #2

Increase disk storage space for backups, copy 'some' protected disks, or transfer entire disks in a single file with a modem.

DZ & LZ - AllCrunch and AllUnCrunch, v1.2, are the amazing archiver programs you've read about. Lightning fast and more reliable than ARC. Fantastic for creating backups. (ML)(DOC)

SHRINK 130 - Shrink or unshrink single or double-density disks in 1 pass. Verify shrunk files. (ML)(Use only with 130XE!)

SCRUNCH 3 - Scrunch/Unscrunch v3.00 is a friendly menu driven archiver package that's compatible with the older Scrunch/Unscrunch 1.0 on Theme Disk #123. (ML)

CRUCHER & DECRAUSHER - Commonly used archiver programs that are also Happy Customizer supported. (ML)

BLOC - The Binary Load Compressor utility. (ML)

SHRINK 2 - Shrink an entire disk to a file, or unshrink. Full featured with an ATASCII display. (ML)

DISK MASH - Fast archiver/retriever that only requires 1 pass if using the 130XE. (ML)

■ 247 PROGRAMMER'S TOOLS #2

EMULATOR - Better than the "Translator". ACE's Atari XE/XL to 800 Emulator 2.1 features the 800 rev.B OIS, expanded memory option, alternate character set, and faster floating point options. Run Atari 800 programs on your XL/XE! (ML)

CODEBUSTER - A disassembler that loads any DOS file into a buffer and displays the contents as ASCII, HEX, or 6502 Instruction. Will write out the file as a binary load file and will even load more than one file and combine them. Instructions built in. (ML)

RODS - The "Result of Data Scan" scans files. Character tables. (ML)

SOURCE WRITER - The 6502 Source Code File Generator disassembles direct to disk. (BAS)

DESIGNER - Create designer labels for your disks on your Epson compatible. (BAS)

■ 285 G.O.E. DEMO

A semi-operational demo of the Graphics Operating Environment (G.O.E.) cartridge for the Atari XL/XE and 1050/XF551 drives. Use an ST mouse to operate the ST-like desktop and try out the excellent drawing program.

DOUBLE-SIDED THEME DISKS

■ D-3 MACHDOS & BLACK DOS

Side 1 contains MachDOS, featuring a unique "pop-up" windowed DOS menu, auto switching of densities, default drive settings, fast sector

copying, multi-file copying, write verify on/off, DOS 2.0/2.5 compatibility, and complete documentation. Side 2 contains the classic "Black DOS" modified DOS 2.6f, featuring all regular DOS commands, plus drive speed check, HEX/DEC conversion, write verify on/off, and more.

■ D-44 800XL 256K UPGRADES

The complete parts list, source code, and instructions to create a 130XE compatible 256K upgrade for your Atari 800XL! Includes a DOS 2.5 quarter-meg XL modification, RAM-disk drivers, extended memory diagnostics, and demos. For experienced users!

■ D-45 SYSTEM REFERENCE MANUAL #1

■ D-46 SYSTEM REFERENCE MANUAL #2

Atari 8-bit Reference Manual is a must for anyone interested in programming on Atari 8-bit computers! The 20 detailed chapters, plus appendices, are a complete rewrite of Atari's (once secret) technical manuals, describing the entire 8-bit operating system. This 2 disk set covers everything, including the newer XL/XE models. Shareware by Bob Duhamel.

■ D-47 MYDOS 4.50 #1

■ D-48 MYDOS 4.50 #2

The official MYDOS 4.50 is now in the Public Domain! MYDOS is compatible with Atari DOS 20 and 25, yet contains provisions for double-density and large RAMdisks. Supports most types of drives, from Atari single-sided to the new double-sided Atari XF551, as well as Hard Drives and RAMdisks! Features 18 menu functions and allows the use of sub-directories. MYDOS is a logical upgrade from DOS 2.5! (2 disk set!)

■ D-49 EXPANDED TURBO BASIC DOCS

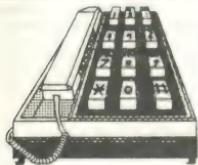

Ron Fertzer's expanded documentation for Turbo Basic is written especially for the beginning and intermediate Atari user! This big 37 page manual CLEARLY explains in detail each new Turbo Basic command, and shows by example how it is used. Programming, structured programming, and graphics are covered. As an added bonus, complete tutorials in Turbo Basic are provided on arrays, pseudo string arrays, and sorts. You need this disk if you want to use Turbo Basic!

■ D-50 TURBO BASIC 400/800

At last, a release of Turbo Basic for the Atari 400/800! Now users of the older Atari computer models can experience this great new BASIC language from Germany. Complete with demo programs and DOC files.

■ D-60 D-UTILITIES!

A potpourri of disk utilities by Les Wagar! Deleted a file by mistake? You've a file that won't run? Want to personalize your disks? Trace files? Want to change data in programs you can't list? Then DISKUTIL will do it all for you and more besides!

TELECOMM & ELECTRONICS

■ 081 CARNIVAL BBS

CARNIVAL NETWORK is a modified version of the AMIS BBS that contains many added options! Features include password control, account #'s, a new SYSOP level, an improved chat mode, and much more. A Hayes Smartmodem or compatible is required, along with an 850 Interface and one disk drive. A printer is NOT required. Instructions included.

■ 093 KERMIT

Kermit Terminal Emulator v1.3 is a popular upload/download protocol for transferring files between many different systems. Your 8-bit Atari can now talk to IBM PCs, Atari STs, VAXs, CP/M, etc. Menu driven, featuring DOS commands and auto-dialing, etc. It even simulates 80-column display using scrolling! Supports the Hayes Smartmodem or compatible, with an 850 Interface. Instructions included.

■ 094 AMIS XM10 BBS

The AMIS XM10 BBS v4.5pd! A full featured Bulletin Board System from M.A.C.E. for use with the Atari 835, 1030, and XM301 direct connect modems. Everything needed to start your own BBS is on this disk, including instructions. Supports auto answer on the XM301, while the 835 and 1030 modems require the building of a bell detector (easy instructions included). Utilities TSCOPE and BBSFONT (generates bulletins) are also included. A printer is required.

■ 095 AMIS 850 BBS

The AMIS BBS v2.3 is a full featured bulletin board system for use with Hayes compatible modems and an 850 Interface. Everything you need to start up your own board is on this disk, including complete documentation! AMODEM PLUS, an enhanced AMODEM 4.2 Terminal program with auto-dial, is also included. A printer is required.

■ 096 HAM & ELECTRONICS #1

CODE TUTOR - Teaches Morse code in 10 easy lessons. (BAS)

SATELLITE ORBIT - Calculates OSCAR 8, UOSAT 9, and RS 3-8 orbits. (BAS)

ANTENNA CALCULATOR - Calculates length of a 1/4 wave vertical ground plane antenna and a 1/2 wave dipole, given frequency. (BAS)

EFORMS - Calculations of OHM's Law and resistances in parallel, series, or series/parallel. (BAS)

RESISTOR - Decode resistor color band values. (BAS)

YAGI CALCULATOR - Calculates dimensions for YAGI antennas. (BAS)

RF COIL - Helps design small RF coils. (BAS)

LC COMPUTER - Computes values for L-C (tuned, inductive reactance, capacitive reactance, and resonant) circuits. (BAS)

PADPIX - Designs resistive T, H, and P: Attenuator Pads and displays schematic. (BAS)

CALLDUPE - Database for station calls. (BAS)

CONTEST - Call-letter log and an on-screen clock. Great for DX contests. (BAS)

MINIMUF - Sample driver for MINI-MUF 3.5. (BAS)

■ 097 835/1030 TELECOMM

DISK 'O' LINK - An experimental terminal program with MACintosh-type features like pop-up menus. Written in C, it supports file transfer between 2 Atari computers using XMODEM protocols. Function keys (the [HELP] key on XLXEs) access the 50-screen help file. Among its many unique features, users can even "chat" during file transfers. (ML)(DOC)

TSCOPE - Lets the Atari 835/1030/XM301 modems transfer (upload/download) both ASCII and binary files to Compuserve. Also transfers the Vidtex graphic files. Menu driven with many features, including auto-dial, log on, etc. With instructions. (ML)(DOC)

TERM1030 - Multi-featured 1030 terminal program with XMODEM protocols. Version 3.0 features unlimited file size download/upload, plus auto-dialing directory. Menu driven and compatible with most BBSs. Includes an autorun T-handler. (BAS)(DOC)

■ 098 TELECOMM UTILITIES #1

DEITY - Alters disk sectors to a "LISTed" ASCII format for modem transfer, then restores them again. (BAS)

FORTH CONVERTER - Converts between FORTH screens and DOS files to allow FORTH to be sent over a modem. (BAS)

SEPARATE - Downloads several files at once, then separates them to save time and \$'. (BAS)

SCANNER - Auto-scans local or long distance phone numbers for computers! Hayes compatible modem and printer are required. (BAS)

AMODEM v7.0 - An enhanced version of AMODEM for use on ASCII CP/M systems, Atari to Atari, and most BBSs. Features the XMODEM protocol and smart dialing. (BAS)(DOC)

AMODEM MPP - An autorun driver that lets you use your MPP modem

with AMODEM v7.0. (ML)

AMODEM v4.2 - The classic AMODEM v4.2, terminal program featuring XMODEM protocol for use on CP/M, Atari to Atari, and most BBS systems. (BAS)(DOC)

■ 099 1030/XM301 AMODEM

AMODEM v7.22 - The improved AMODEM 7.22 terminal program! Better than ever, it can also be used with Atari 1030 and XM301 modems. Access all BBSs, as well as CP/M, Compuserve, The Source, etc. Many features including auto-dial, custom menus, macros, and 300/1200/2400 baud rates. (BAS)(DOC)

DIAL 7.2 - Auto-dial file builder/editor for AMODEM v7.22 and Omniterm. Enter numbers, passwords, and comments, etc. (BAS)

AMODEM PLUS - Another enhanced version of AMODEM 4.2 with many features including a smart-terminal dialing system. Complete instructions. (BAS)(DOC)

AMODEM 1030 - This version of AMODEM4.2 with autorun is designed for the Atari 1030. (BAS)

■ 100 1030/XM301 EXPRESS!

2.1

Written especially for the Atari 835, 1030, and XM301. "1030/XM301 Express" is "the" first choice in terminal programs among many Atari users, and is superior to many commercial programs! It features a scrolling menu, mini DOS, copy buffer, XMODEM protocol (Compuserve) uploads/downloads, auto-dial, macros, etc. Complete documentation. Shareware by Keith Ledbetter.

■ 101 MPP MODEM UTILITIES

TSCOPE-LESS v3.0 - Allows MPP systems that can't employ TSCOPE to download Compuserve files that have the "BIN" extender. Also translates files with the "XMO" extender without needing XMODEM protocols. Allows downloading of files that exceed buffer size. (ML)(DOC)

DRIVERS - An MPP 1000C main driver, a smart driver, plus a Homepak driver to allow use of Hometerm with MPP 1000C modems. (ML)(DOC)

■ 102 HOMEPAK CUSTOMIZER!

Large documentation files contain a compendium of useful Hometerm info not included in the manual, including capabilities and problems, ATASCII and cursor controls, 1030 macro dialing, the MPP handler, Compuserve downloading, BBS XMODEM transfer, person to person XMODEM transfer, dumb uploading, capturing, timer problems, sending printer control codes via Hometerm, and more. Plus, a collection of Home-

pak resource programs, complete with instructions, which will allow you to patch a copy of Homepak to support DOS 2.5 and the 130XE's RAMdisk, change dozens of parameters in your Homepak disk, configure a copy of your Homepak master disk for your MPP modem, and use the Rverter which starts at a lower ADDR.

■ 103 AMODEM 7.5

The newer AMODEM 7.5 terminal program provides more support for the Atari SX212 and the MPP modems. Plus, improved auto-dial scanning, macros, and built in Spartan-DOS support. Features X-modem, YMODEM, CRC, and YMODEM batch file transfer. For use with all 8-bit Atari models and most popular modems. Complete with instructions. Shareware by Trent Dudley.

■ 119 XE-TERM

XE-Term is a full featured terminal program for the Atari 130XE and XM301 modem. An extensive specifications manual for the XM301 modem is also included.

■ 135 ACETERM

Here's the ACETERM terminal program for XM301, 1030, 835 modems used with the "ACE 80" 80-column screen editor cartridge once available from Amiable Computer Enhancements. Features include auto-dial and XMODEM transfer. (The ACE 80 cartridge IS required!)

■ 136 SX212 SPARTA EXPRESSI

850 EXPRESSI v3.0 in SpartanDOS format and modified for use with the new Atari SX212 modem! Shareware by Keith Ledbetter. (Instructions not included, but may be found on either Theme Disk #D-36 or #D-37.)

■ 137 HAM & ELECTRONICS #2

RADIO STATION MORSE - The ultimate CW trainer! Uses a joystick to send and receive code. (BAS)
MORSE 1 - Identify alphabet from given code signals. (BAS)
MORSE 2 - Identification trainer! Code is given as character appears. (BAS)

MORSE CODE - Practice receiving Morse with the "Amateur Radio Aid Practicing Morse Code". (BAS)

CW COPY - Use joystick to practice sending and receiving code mes-

sages. (BAS)

CODE - Identify alphabet characters in Morse. (BAS)

CONTEST - Handy call-letter log. (BAS)

DXFILE - The Hamfile file editor. (BAS)

SWR CALCULATOR - SWR calculation program. (BAS)

TRACKER - Satellite orbit tracking program. May be configured for almost any satellite. (BAS)

RESISTOR - Check/learn resistor band values. (BAS)

DIPOLE - Loaded dipole antenna designer. (BAS)

KEY 6 CIPHER - Encipher and decipher messages with the Key 6 Hand Cipher. (BAS)

TIMER 555 - Select operational values for R & C. (BAS)

TONE 567 - The 567 Tone Decoder helps select proper values. (BAS)

■ 138 TELECOMM UTILITIES #2

DISK TRADER 300 - Will transfer a complete 720 sector disk with an Atari 835 or 1030 modem. (ML)

HACKER - Scan telephone numbers for computers. (BAS)

MSCAN - Scan local numbers for computers using a Hayes Smartmodem or compatible. (BAS)

STRIP III - This utility removes extra characters sent at the end of an XMODEM transfer. (BAS)

WOP - Unique "moving cursor" Text File Creator to produce animated ATASCII movies, ads, and BBS titles. Sample ad included. (BAS)

LE BREAK 3 - Create, save, or capture animated word/character graphics screens (Break messages) as seen on 8-bit BBSs. (ML)

TEST 835 - Test facility package for Atari 835 modems. (BAS)

■ 149 VT100 TERMINAL EMULATOR

Turn your 8-bit Atari into a DEC compatible 80-column VT-100 graphics terminal. The 80-column screen can be read on a monitor or crisp b&w TV! Works with a Hayes compatible modem and 850 Interface, or Atari 835 and 1030 modems. No other hardware needed! (Translator is required for XL/XE models.)

■ D-07 FOREM BBS

A professional BBS system now in the Public Domain! Many features.

including SYSOP remote access, use of up to 8 drives, 26 levels of access, automatic file compacting/editing, and much more. Use with any auto-answer modem. Instructions included. Requires an 850 Interface and printer.

■ D-33 CHAMELEON (A)

■ D-34 CHAMELEON (B)

Now convert your Atari into a powerful computer terminal! The Chameleon Terminal Emulator v4.02 emulates 6 terminals including the Glass TTY, ADM-3A, VT-52, VT-52XL, IBM 3031 ASCII, and a Test terminal useful for debugging. Supports Atari 835, 1030, XM301 modems, and Hayes Smartmodem or other Hayes compatibles. Many features including transfer speeds of up to 9600 baud and a scrolling screen display up to 132 characters across. Transfer files between Atari and most other computers, mainframes, etc., especially when using a null modem cable. Complete instructions. (2 disk set!)

■ D-35 MPP EXPRESSI

An EXPRESSI v1.0 especially for owners of the MPP1000 series modems! You too can experience the power of EXPRESSI, including both XMODEM uploads and downloads. A copy of MSCOPE is also included, permitting access to VIDTEX graphics. Complete with instructions. Shareware by Keith Ledbetter.

■ D-36 SX212 EXPRESSI 3.0

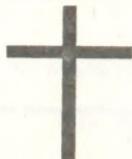

Attention all SX212 owners! This version of the famous 850 EXPRESSI 3.0 terminal program has modified handlers to support the new Atari SX212 modem. This is one of the finest terminal programs available anywhere! It's all you really need. Complete with instructions. Shareware by Keith Ledbetter.

■ D-37 850 EXPRESSI 3.0

850 EXPRESSI v3.0 is for modems which require the 850 Interface, such as the Volkesmodem, Smarterm, and the popular Hayes or Hayes compatibles. Includes 300-2400 baud transfer, an auto-dial menu with macro support, and complete instructions. Too many great features to list. One of the finest terminal programs available anywhere! Shareware by Keith Ledbetter.

THE EASY WAY TO ORDER

The KJV New Testament

THE NEW TESTAMENT (KJV)

BELLCOM is proud to present the complete King James Version (KJV) of THE NEW TESTAMENT! Each 2 sided disk contains text files of the chapters indicated. All text files are in AtariWriter format and may be read from the screen as DOC files, or they can easily be accessed with your favourite word processor and printed out for study purposes. The "SEARCH" features of your word processor may be used to quickly locate any Scripture word or phrase. Let your Atari become a real "WORD" processor!

BELLCOM wishes to thank Rodney Haun of COMPUTERS AS TUTORS.

for his generosity in letting us use these files. For a complete listing of the software Mr. Haun has available, write to COMPUTERS AS TUTORS, 325 May Court, Mount Zion, IL, U.S.A. 62549

Contains chapters Mark 6 to Luke 15.

■ **D-16 NEW TESTAMENT #3**
Contains chapters Luke 16 to St. John 21

■ **D-17 NEW TESTAMENT #4**
Contains chapters Acts 1 to Romans 6.

■ **D-18 NEW TESTAMENT #5**
Contains chapters Romans 7 to Ephesians 6.

■ **D-19 NEW TESTAMENT #6**
Contains chapters Philippians 1 to 1 John 3.

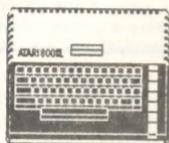

■ **D-20 NEW TESTAMENT #7**
Contains chapters 1 John 4 to Revelations 22.

DOUBLE-SIDED THEME DISKS

■ **D-14 NEW TESTAMENT #1**
Contains chapters Matthew 1 to Mark 5.

■ **D-15 NEW TESTAMENT #2**

PRINT SHOP ICON CATALOGUE

PRINT SHOP OWNERS

Looking for high quality Print Shop Icons? Look no further! Write for our separate BELLCOM PRINT SHOP CATALOGUE listing hundreds of Icons you can use with Print Shop. Some are even multi-colored!

TRADING SOFTWARE

It's no secret that we are always on the lookout for the latest in top-notch Atari programs to meet the needs of our customers. If you have written programs that you would like to place in the Public Domain or offer as Shareware, or if you have any Public Domain software in your collection that is not currently in the BELLCOM library, then please forward a list to us. We will be happy to evaluate your programs for possible inclusion in our catalogue.

HOW TO SUBMIT SOFTWARE

List the name of the program, the FILENAME.EXT, the number of sectors, and in a few words describe the nature of the program. For example, "CHOMPER.OBJ" (035) - Arcade game similar to PacMan". We will write to you and indicate the programs we're interested in. For each

disk full of programs you send at our request, we will ship a complimentary BELLCOM Theme Disk of your choice to you in appreciation. What's more, our catalogue will give your program wide coverage. You might even achieve a measure of fame, as some Public Domain and Shareware authors are known the world over.

WE'RE ALWAYS LOOKING FOR NEW ATARI PROGRAMS

Please DO NOT send unsolicited disks as we cannot return them, and besides, we may already have the programs! We're not interested in

programs that are presently in our library, so please check our catalogue first. Also, we do not require further AMS music files, Movie Maker files, pinball games, or Computer Gourmet data disks. Original games, utilities, graphics, and useful home and business programs are generally most in demand. New Koala art and ComputerEyes digitized images are accepted only if they are of exceptional quality and unique.

IMPORTANT

Submitted software must be in the Public Domain, as we will not accept any pirated commercial software or copyrighted programs that have been published in computer magazines! Also, submitted software must meet the BELLCOM standard of quality and good taste. Programs should be bug-free and be accompanied with documentation files if required.

DISK INSTRUCTIONS

ARE BELLCOM THEME DISKS COMPATIBLE WITH MY SYSTEM?

Our Theme Disks come in standard single-sided single-density format and are guaranteed to load on *any* Atari 8-bit system. Although some Theme Disks are double-sided, these are not true double-sided disks and are known in the trade as "flippies". This is because they must be turned (flipped) over in order to access the second side even when a double-sided drive is used. A few of the older Atari 400/800 programs require a "Translator" program to run on the newer XL/XE models, and some programs, especially those written in Turbo Basic, will only run on XL/XE models. The catalogue will inform you of a program's requirements.

WHAT'S A TRANSLATOR PROGRAM?

The newer Atari XL/XE computers have a slightly different operating system than the older Atari 400/800 computers have. As a result, some software written for the 400/800 will not run on the XL/XE. "Translator" programs reconfigure the XL/XE's operating system to that of the older 400/800 models and allow the software to run. To use them, first load the Translator, then change disks and load the desired program. If you wish to load a non-BASIC program, remember to hold down the XL/XE's [OPTION] key while loading the Translator in order to disengage BASIC. Translator programs are available from the Utilities section of this catalogue. Every XL/XE owner should have a Translator program. You never know when you may need one.

HOW DO I RUN THEME DISKS?

Insert the Theme Disk in your drive and switch on your computer. It's just that simple. Many Theme Disks will display a special BELLCOM MENU that allows you select and load the individual programs. To use it simply press [SELECT] or [OPTION] to scroll the colorful cursor line to the desired program and press [START] to begin. Run the "HELP.DOC" file for instructions. To load another program, simply switch off the computer and reload the MENU.

WHAT IF I HAVE PROBLEMS?

You shouldn't have any problems, however, if you get a "BOOT ERROR" message it could mean that the disk has been corrupted in the mail. If the program loads and then "freezes" or displays garbage on the screen, check the program's description in the catalogue. It could be that it's a machine language (ML) program and you must remove BASIC prior to loading or, if you have an XL/XE model, you may have to use a Translator. Game programs will sometimes wait for joystick input. And occasionally, a machine language program can only be loaded from DOS using the BINARY LOAD option (boot DOS without BASIC from a separate work disk then insert your Theme Disk).

Experiment, and be sure to read any documentation (DOC) files provided. Finally, if you try everything and you're still stuck, we're ready to assist you.

HOW TO ORDER

See your enclosed BELLCOM ORDER FORM for simple ordering instructions and current prices.

If you do not have an ORDER FORM, please write and request one. We will be happy rush one to you.

BELLCOM SALES POLICY

I personally guarantee that all software I provide will run or I will replace or exchange it for free! If you are unable to load your disk or any program, it has probably been corrupted in the mail. Simply return the disk with a note describing the problem and I'll ship a replacement disk to you immediately. If I inadvertently shipped you the wrong disk, please return it and I'll replace it with the correct one. Your postage costs will be credited on your next order.

DISCLAIMER: No other warranty is implied or expressed. Due to the low cost of our copy service, we cannot exchange a program you don't like, nor can we warrant a program to be entirely bug free. We make every effort to describe disk contents, however, this catalogue is not warranted to be completely accurate and we reserve the right to remove or substitute programs, or renumber disks from our library without notice when it is deemed necessary. Also note that we shall assume no direct or indirect responsibility for any loss, damage, or expense however caused, resulting from your use of or inability to use any software that we distribute. The use of these disks does presuppose a reasonable familiarity with your computer. Due to supplier price changes, prices are subject to change without notice. All offers and sale prices will be good only for that offer or sale, or for as long as supplies last.

We appreciate your letters of encouragement

HERE ARE JUST A FEW...

- ✓ Your catalogue is great! I have never seen such an offer from anyone else. I really appreciate the time and effort you have put into making it so easy to order. The narratives are very helpful. M.S., Goldsboro, NC.
- ✓ It is not often in today's business environment that you come across an organization that is so easy to do business with, and one that has a true concern for it's customers. Thank you again for your consideration. M.P.E., Maywood, NJ.
- ✓ Saw your ad in Antic. You have the best looking P.D. catalogue I have seen. S.V., Graham, TX.
- ✓ I have long been a customer of yours, and buy my Public Domain disks now exclusively from you. D.S., Bahamas
- ✓ All the disks I have ordered from BELLCOM have been outstanding! J.T., Vernon, B.C.
- ✓ I would like to take this opportunity to extend my THANKS for two fine BELLCOM disks I recently received! I respect your honesty and dedication to quality. I've received several other Public Domain Catalogues, but found that none compares to yours. Your catalogue offers selection, variety, and organization! The others do not. On behalf of all the 8-bit Atari owners out there... THANKS DON! C.P., Camrose, Alta.
- ✓ Thanks for your catalogue. Its the biggest I've seen... B.J., Hamburg, West Germany
- ✓ I recently came across your catalogue. I have looked several years for a catalog such as yours. R.G.B., Vancouver, WA.
- ✓ I've looked over your catalogue and its the best! Unlike yours, most other Public Domain services send you a few pages stapled together and it all falls apart. BELLCOM offers it's customers a real catalogue that is neat in appearance, organized, and very descriptive... I'm glad I discovered BELLCOM and it's support for the Atari 8-bit market. G.R., Thunder Bay, Ont.
- ✓ Thanks so much for the great disks. I haven't had time to try them all yet, but what I have tried has been absolutely professional. It really is a good alternative to commercial programs. T.F., Zweibrucken, West Germany
- ✓ If these programs are as professional as your catalogue, you're undercharging! (just kidding!) But this is a great job! B.H., Carlisle, PA.
- ✓ I was glad to see a Public Domain library in Canada, and a unique one. Your library has the best selection of P.D. programs I have seen. B.A., Yarrow, B.C.
- ✓ Your P.D. software is the best. Thank you for providing such excellent service. K.W., Downingtown, PA.
- ✓ The catalogue is superb. You really go ALL OUT. Good luck! V.F., Toronto, Ont.
- ✓ I must thank you for those disks you sent me. They are great. I really enjoyed BENEATH THE PYRAMIDS and David Castell's VOYAGE THROUGH TIME. The other disks are also incredible. T.M., C.F.B. Borden, Ont.
- ✓ I would also like to take this time to say that every disk ever purchased is greatly enjoyed. Thank you. A.K., Chicago, IL.
- ✓ I find your catalog to be the best available. D.S., Westminster, MD.
- ✓ Thank you for supporting Atari 8-bits with great Public Domain program libraries from around the world! Have you got more from Germany...? I have to have them! S.Y., New York, NY.
- ✓ I am very pleased that I
- ✓ found BELLCOM and look forward to ordering more disks in the future. F.S., Brantford, Ont.
- ✓ I was pleased to see the well written descriptions with each disk. It makes it easy to understand what is on each disk and what each disk does. Hang in there BELLCOM. You're looking good from here. B.S., Boynton Beach, FL.
- ✓ I have just received your new list of Public Domain software and it looks great! I spent about two hours going through the catalogue and found dozens of things that I am interested in. A.P., Boonton, NJ.
- ✓ I really like the new catalogue. I only received it today and I am placing an order. W.H., Canton, OH.
- ✓ Very pleased with previous order received! O.H., Los Angeles, CA.
- ✓ I am very impressed with your catalogue. It is very well put together and I appreciate your descriptions. Please rush my disks... I can hardly wait! M.M., Longview, WA.
- ✓ Hi again! I just received my first BELLCOM disk. Good stuff, folks! I especially enjoy the Menu you use. Anyway - here's another order. K.H., Duluth, MN.
- ✓ Your service is excellent! Keep up the good work. P.K., Sudbury, Ont.
- ✓ Received last order. You do good work! Glad I found you. T.J.N., Santa Fe Springs, CA.
- ✓ Thank you so much for sending me your catalogue. I am very impressed with it's general layout, the detailed description of each program, and most of all with it's large selection of disks/programs to choose from. N.T., Cape Town, South Africa
- ✓ You have been very helpful to me and I have recommended your Co. to many of my friends. K.F., Whitehall, OH.

**We're getting quite
a reputation!**
